Toll, Bloch Get Creamed at Bridge Ceremony

BY DAVID M. RAZLER

University President John Toll came away from the Bridge to Nowhere opening ceremony with shaving cream on his face, while most of the other attendees came away with only balloons, free champagne and chunks of the bricks which formerly walled off the unfinished end of the structure which had come to identify Stony Brook.

The ceremony which began with trumpets and tympany drums ended with the sounds of the bridge wall being knocked down with gold-painted sledge hammers, took place Friday, beginning at 11:30 AM and stretching into the afternoon. Although the culmination of the activities was supposed to be the destruction of the rebuilt bridge wall, the peak of activity seemed to be reached when an unknown person in the audience standing on the bridge stepped forward and threw a shaving cream pie into Toll's face.

Toll ignored the pie and finished his speech without comment on the incident. Despite the presence of a large contingent of Campus Security officers, the pie thrower was not apprehended. Moments before the hit, plainclothes Security officers pushed their way through the crowd of reporters and photographers standing in back of the podium. But by the time they got to Toll, the pie had been thrown, landing just a couple of inches off dead center, decorating the left side of Toll's head, hat and coat. Security did not move into the crowd.

Toll was followed by Gluxman and Camarda, and then by Toll, who was hit with a pie while expressing his thanks to those who had helped in the completion of the Bridge.

After Toll's speech and more ceremonies music from a University ensemble, the University President passed around a gold spray-painted hammer to those who wished to knock over the few bricks reassembled as a representation of the original wall which blocked the end of the Bridge before the new construction began.

UNIVERSITY PRESIDENT JOHN TOLL makes a speech after being hit by a shaving cream pie. Laughing in the background is Polity President Ishai Bloch who later met the same fate as Toll.
Begin Invites Egyptian President To Address Israeli Parliament

Jerusalem (AP) — Prime Minister Menahem Begin extended an official invitation yesterday to Egyptian President Anwar Sadat to address the Israeli parliament, but he warned that Sadat's refusal has stalled efforts to renew the Geneva talks.

Sadat extended an official invitation yesterday to Begin to address the Egyptian parliament, but he warned that the refusal has stalled efforts to renew the Geneva talks. President Sadat has not yet decided to come.

Begin told reporters, "If this goes, it comes a positive proposal, connected with a name, we must first ask ourselves in order to make a decision." He added, however, that Israel still stands by its refusal to negotiate with Palestine Liberation Organization delegates at a Geneva conference.

This refusal has stalled efforts to renew the Geneva negotiations. The Arab states have endorsed the PLO as the "sole, legitimate representatives" of the Palestinian people. Israel says it won't talk to the PLO because its charter calls for eradication of the Jewish State.

AMA, Bar Association Call for Federal Decriminalization of Pot

Chicago (AP) — The nation's most influential organizations of professionals, the American Medical Association (AMA) and the American Bar Association, have endorsed the decriminalization of marijuana for personal use.

The AMA, which represents more than 60 low-tar cigarette brands on the market and about 25 percent of the market, has endorsed the decriminalization of marijuana for personal use.

The American Medical Association (AMA) and the American Bar Association (ABA), in a joint statement, called for the elimination of criminal penalties for marijuana use.

The statement said the groups issued a statement that called on the U.S. Congress and state legislatures across the country to "decriminalize" the use of marijuana.

They'd Rather Switch Than Fight

New York — Health-conscious American smokers are switching to increasing numbers to low-tar cigarettes and tobacco companies are spending millions to promote their products.

"The so-called low-tar market is growing extremely rapidly," said William Koopeijer Jr. of The Tobacco Institute Incorporated, a trade organization. "It probably now exceeds 20 percent of the market."

There are about 60 low-tar cigarette brands on the market and still more are planned, he said. He likens the growth in low-tar cigarettes to the boom in filter-tipped cigarettes in the 1950s.

"The rise parallels the history of filter cigarettes, beginning in about 1953," Koopeijer said. "The curve at the moment is pretty much on the same course."

No Sexual Regulations

New York — More than 70 percent of Americans feel "there should be no laws, either federal or state, regulating sexual practices," according to a recent survey.

The poll of 1,056 registered voters also revealed that 51 percent do not believe it is wrong for a couple to live together outside of marriage.

The survey, conducted by the research firm of Yankelovich, Smith, and White, appears in the current issue of TIME magazine.

While it disclosed relatively liberal attitudes on some sexual issues, the survey also revealed relatively liberal attitudes on some sexual issues.

How To Say No and Live

Frederic Storaska, author of "How to Say No to a Rapist and Survive," will speak on rape prevention on November 15, in Lecture Hall 110. Storaska, who is the Executive Director of the National Organization for the Prevention of Rape and Assault, has spoken on this topic at Princeton and universities, high schools and rape clinics across the country.

One Man Campaign

Storaska has been leading a one man campaign aimed at enlightening the society to the causes of rape, in the hope that with the power that comes with knowledge, potential rape victims will be able to avoid being raped or learn how to defend themselves in the event that they are assaulted. Storaska has earned the respect of men and women, feminists and traditionalists, of the clergy and the secular community, scientists among several groups, and criminologists. However, he still remains a controversial figure.

Storaska is personally responsible for the establishment of many rape clinics and anti-rape programs in cities across the country. He will be speaking for five hours.

End to Blackout Disruption Sought

Washington — The Federal Communications Commission (FCC) is preparing to reconvene Geneva peso conference.

Washington — An internal Health, Education and Welfare Department study of睡眠 of unauthorized and use.

Because of the poor showing by the Department of Health, Education and Welfare's (HEW) computers, there are indications HEW was far from meeting minimum acceptable standards, the six-month audit said. "The average minimum standards for protecting that information from unauthorized disclosure or use.

The headquarters of the two major wire services and commercial television networks are located in New York.

HEW Computers Vulnerable to Leaks

SBS Departments Plan Move into New Building

By PAUL LING

Seven more academic departments are expected to move into their new offices in the newly constructed $14.7 million Social and Behavioral Sciences Building by early next June. The departments of Sociology, Linguistics, African Studies, Anthropology, Economics, Political Sciences, and the Economic Research Bureau are currently preparing to move into the new seven story building located on the south side of the Administrations parking lot. The departments have already submitted requests for office furniture and equipment.

Furniture has also been ordered for 19 new classrooms on the first floor of the building. According to Assistant Registrar for such scheduling and space, Pam Steele, spring semester classes have been scheduled for these classrooms. "The individual departments control scheduling in their own rooms on the other floor," she said.

According to Coordinator of Facilities Utilization Steve Kowalski, some departments may move into the Social and Behavioral Sciences Building by early next June. He said that some may move over the semester break if it can be done without disrupting the academic schedule. When the departments move into their new offices vacancies will be created in the Library, Social Science and the Graduate Chemistry buildings, according to Kowalski.

The vacancy in the Library has been filled by Acting Vice President for Liberal Studies Patrick Heelan, and his staff, who formerly occupied offices in the Administration Building.

When the Social Sciences offices are vacated the Psychology Center, the campus and community training division of the Clinical Psychology Program will expand, according to Psychology Department Chairman James Geer. After the Anthropology Department moves out of the Graduate Chemistry Building, the Chemistry Department will have room to expand.

Departments Already in

The seven departments will join several other departments which have already moved into the Social and Behavioral Sciences Building. The departments of History, the Social Sciences, Interdisciplinary Departments of Asian Studies, Secondary Education, Women Studies, Early Childhood Education, and Music have offices in the new building. When the new offices are completely filled they will hold approximately 150 faculty members, several hundred teaching assistants and several dozen secretaries according to Provost for Social and Behavioral Sciences, Patellie James.

The building will also house a Political Science Behavioral Lab, Social Studies Information Library, a Day Care Center, an Anthropology Museum and a Sociology audio-visual lab, according to Director of Facilities Planning Charles Wagner.

Students Petition for New Resident Parking Lot

By BETH GOLDSKLANG

Langmuir College residents are petitioning the University to make the dirt area near the infirmary an official resident parking lot to help alleviate the college's parking problem.

According to Langmuir residents, one of the major reasons for making the dirt area a parking lot is that the college has no adequate parking facilities. The petition also states that the present parking facilities are so located as to create a "potential safety hazard" because "students and staff are going to their cars have lengthy walk through a dimly lit part of the campus."

According to the petition, the area hasn't been used for anything for the past several years because it is entirely a bare dirt surface.

In the past, students parked in the area despite the fact that it is not an official resident parking area. This semester the Department of Public Safety has begun ticketing and towing cars parked in the area. "Everyone's been parking there for years. There's never been any towing of student vehicles before this semester," Langmuir Managerial Assistant Dave Weiner said.

Early this semester Langmuir MAs discussed the possibilities of turning the dirt area into a parking lot with Resident Life Director Robert Farrell. According to the MAs, at the time, Farrell said that he didn't see any problems.

Assistant to the Executive Vice President Ron Siegel said that he would not authorize the dirt lot as an official resident parking facility unless the area was paved. According to Assistant Executive Vice President Sanford Gensel it is doubtful that the area will be paved because a parking lot in the area would "violate every traffic law." he said that the entrance to the lot would block traffic and cause a safety hazard.

Siegel stressed that the dirt area near the infirmary is not currently an official resident parking area. "If students are being loused by security, then security is right," Siegel said.

North Gate Closing Hurts Late Night Fast Food Sales

By ANITA PENNER

Since the University closed North gate in the evening and most traffic entering or leaving the University after 11 PM through South Gate, business at the resident parking area at Goodies Pizzeria have declined. According to Van Jacobsen, owner of Jacobsen's Delicatessen, "Since the North Gate was closed, at least they want it, they'll come to me." he said. The 24 hour a day service of Jack in the Box has also been affected by the North Gate closing.

"When you have to go to the South Gate, you make it a big deal," said senior James Kapotes.

"No one else is open that late," said Tony Corso, manager of the Goodies Pizzeria. "If they want it, they'll come to me." he said. He said that students are being dissuaded from going to Route 25A since it has been affected by the North Gate closing.

Senior James Kapotes said that the change has been affecting his sales. "I can't believe the difference," he said. He added that some students are being dissuaded from going to Route 25A because it was still possible to reach 25A.

Sophomore Karen Goldsmith said that having the gate close earlier is "a good idea" for increased security. She added that it was still possible to reach 25A.

Junior Heff Rubin said that he has not been affected by the change. "Jack in the Box has never been 25A," he said. He said that he was also not bothered by the change. "It doesn't matter to me. Once I'm in the car, I'm going to drive away anyway," he said.

According to local Jack in the Box, the North Gate closing has created some problems delivering pizza to the University, but he believes it is a good security measure.

"There are not many people being affected by the closing of the North Gate," said he. He added that some students do not have a car and are not affected by the change. "Since North Gate has been closed at night, Stony Brook students also comprise a significant portion of late night business at Jack in the Box," he said. He added that some students have to drive through after 11 PM are Stony Brook students.

"I didn't bother him. "It doesn't matter to me. Once I'm in the car, I'm going to drive away anyway," he said.

A career in law—without law school.

What can you do with only a bachelor's degree?
Now there is a way to bridge the gap between an undergraduate education and a challenging, responsible career. The Lawyer's Assistant is able to do work traditionally done by lawyers. Three months of intensive training can give you the skills—the courses are taught by lawyers. You choose one of the seven courses offered—choose the city in which you want to work. Since 1970, The Institute for Paralegal Training has placed more than 2,000 graduates in law firms, banks, and corporations in over 80 cities. If you are a senior of high academic standing and are interested in a career as a Lawyer's Assistant, we'd like to meet you. Contact your placement office for an interview with our representative. We will visit your campus on: THURSDAY, DECEMBER 8

The Institute for Paralegal Training
235 South 17th Street, Philadelphia, Pennsylvania 19103 Operated by Pars, Inc.
Ferdinand Giese is a man who has never been known for keeping quiet. As the leader of several community civic associations, Giese has certainly built a reputation for himself as an outspoken, though important force in the community. Yet with his victory over Millie Steinberg in last Tuesday’s election for the Suffolk County Legislature, Giese has something now he never had before—power.

During last Friday’s ceremonies dedicating the Bridge to Nowhere, Giese was characterized by former County Executive H. Lee Dennison as a man who would like to see the University razed to the ground. This is not an entirely fair characterization. Giese is merely a concerned citizen, worried about his home and the future of his community. Many years ago, he saw the University as a threat to home and community, and he acted accordingly. He succeeded in making his opinion known (though some could argue that he did too good a job.)

The University administration—his most frequent target—must have rued the results of last Tuesday’s voting. Giese is now in a position to make his views count. And if his past record is any indication, Giese will be a very vocal member of the county legislature, sure to make new laws effecting the lives of students and faculty alike.

The local community is a closed community. Access to students is limited at best. An uneasy truce exists between members of the community and those who use the campus. Even this tenuous peace is constantly being threatened. There have been many times in the past when the truce has been broken by the actions of students, and many times when it has been broken by Ferd Giese.

The most pressing problem straining the peace between campus and community now centers around the sewage treatment plant in Port Jefferson. Giese—and the people he represents as a civic leader—wants the University to build its own plant, and not tax the present antiquated facility to its limits, as is now the case. The University would rather not build a sewage treatment plant on campus, preferring instead to have the Port Jefferson facility rebuilt and expanded. The battle lines have been clearly drawn, and Giese has long been a general in the fight against the University.

But now Ferd Giese must reconsider his position. As a civic leader, Ferd Giese has loudly represented the residents of the Three Village community. He has had their interests at heart because they are his own interests. But as a legislator representing this district, he must also consider the needs and desires of the University. He cannot ignore one segment of his expanded constituency without offending the other.

In Suffolk County, the man who can scream the loudest in the legislature can garner the most power. Certainly, this truism applies to Giese. We expect him to be an important member of the Legislature. But he will also have to serve as a conciliator, bringing together both segments of his constituency. He will soon realize he cannot alienate the University to please the surrounding community. Just as he cannot cut off the community to keep the campus happy. In short, Ferd Giese may soon have to modify his positions regarding issues he once took a firm stand on.

We expect to be hearing a lot from Ferdinand Giese in the coming months; it would be hard to imagine this outspoken leader suddenly becoming a wallflower. To those who have disliked Giese or his tactics in the past, we hope you will give him a chance to do good. To those who have approved of Giese’s actions, we hope he will live up to your expectations.

But most important, we hope Ferd Giese remembers all the people he represents now. We hope he remembers who all his constituents are.
For What It's Worth

By Arthur Tanney

Why the PLO Should Be at Geneva

The news of the Isreali rocket attack on Southern Lebanon came across the radio early Thursday morning. The Israeli rockets had wiped out a few guerrilla camps and taken with them, as a military byproduct, a lot of such attacks, a number of civilians.

In the mid-morning conference the same day, President Carter tried to walk a very thin line when questioned about the Isreali raid. He would neither condemn nor condone the Isrealis. No, he did not think the act was wrong but it looked like another outbreak of war. Yes, he was worried and concerned.

But let's face facts, the war in the Mid-East is not really in danger of beginning again simply because it has never ended in the first place.

Carter and other world figures are putting a lot of stock in the upcoming Geneva conference and he is hoping the recent events in the Mid-East don't succeed in canceling that summit. Still, without PLO participation, the Geneva Conference will accomplish nothing except to show the world that Arab and Israeli leaders, men controlling the events that can lead to nuclear war, are capable of, if not becoming friends in peace, at least dying in the same holocaust.

When people talk about the "Mid-East wars," they include the war for independence in 1948, the Six Day War in '67 and the Yom Kippur War of '73. Well, what about Malsot? Kryat Shmomol? Betabebe? The recent rockets in the middle East.

Understanding the conflict in the Middle East is not an easy thing to do, especially for me. I was brought up in New York, a middle class Jew, pro-Israeli all the way. I marched at rallies for Soviet Jewry and hated money for Isreal during the Yom Kippur War. Isreal, I believed, could not be wrong or wronged in my eyes. If wrong, I wouldn't admit it; if wronged I wouldn't stand for it. But there comes a time when even the most patriotic has to stand up and admit he's wrong.

Bakke Could End Unfair Quota Systems

By STPHEN RINGER

The Bakke case now before the Supreme Court is one of the most painful civil-rights issues facing the American people today. It is crystallizing into a tragic breakdown between groups of people once aligned together in search of a common goal; it is in the center of a whirlpool of debate between those who ten or fifteen years ago were near-total agreement on the issue of civil rights and how to attain it.

A pluralistic society, is also a society of individuals, seemingly disparate but actually sharing similar goals, hopes, and aspirations. That differentiates us from each other are our histories; not our personal pasts, but our collective pasts. Because of historical situations in some, if not all, of these groups' histories, corrective measures are needed now to insure equality for us all. We do not argue with this; we differ only on how to implement these measures.

The final outcome of the Bakke case will not determine whether or not there will be these corrective measures, but rather what type will be used. While affirmative action programs have been largely effective in the past, the rhetoric and politics displayed in the context of the Bakke case have become an obnoxious assault on the sensibilities of most citizens. Contrary to what some may believe, if Bakke wins his Supreme Court case, it will not result in the collapse of all affirmative action programs now in effect. It will, however, bring forth a welcome end to the demagogic and capricious quota which have had a stifling effect on human potential.

Affirmative Action Programs

The political considerations in this case are just as disturbing. The American curser (friend of the court) brief filed by President Carter's Attorney General, Griffin Bell, was to put it mildly, a shoddy political document. The Bakke brief filed by the Justice Department was so thoroughly and leaked in advance by high department officials that it had to be scrapped, replaced and changed by the governor of California, this the government reversed its position from the earlier leaked account. This is an example of the President's commitment to the issue, a man, who, as usual, wanted to have it both ways: to support "affirmative action" while not endorsing "quotas.” As Justice Department for too long said of the Justice Department's behavior, it was "inexplicable, accidental, and unenlightened if deliberate.”

In addition to this, the Carter Justice Department made its decision as a reaction to political pressure rather than as a result of any thoughtful legal debate or considerations. And finally, to this judicial hatchet job, the Attorney General of the United States shamelessly affixed his seal and signature.

A quota is a two-way street: if you can let in in one way, it can be let in in the other. Too often, ending past discrimination has been abandoned in favor of simplistic factions on the basis of race or sex. The present discrimination that end past discrimination simply boggles the mind. Any system that gives advantage on the basis of group membership, however, is inherently wrong. Affirmative action need not be so simplistic. It ought not to guarantee advancement for members of a particular group, but rather to break down old, established and encrusted barriers to opportunities.

Thus it comes down to the struggle between individual rights vs. group needs. Our legal system, no simple code, nevertheless guarantees equality under the law - for the individual and not a group.

Jackson Is Being Persecuted by Polity Council

By GREG B. HERTH

On Wednesday night the Student Council voted to impeach Frank Jackson. This move was an obvious indication and proof of everything Jackson has been telling the students about what is going on in Polity: that a single Jackson is definitely attempting to run him out of the organization.

The Council didn't even notify him in advance of the charges against him — indeed, Jabi Bloch called an "emergency" meeting to deal with the charges. Can you imagine the House of Representatives calling on "emergency" meetings on the same day they are to impeach Carter, while Carter is overseas?

Obviously, the Council, and especially Bloch, felt that if it was to get rid of Frank it had to be done Wednesday night, because as of Thursday Mark Musini would no longer be Treasurer. This is just another indication of a railroad.

Also, why didn't the Senate impeach Frank? All of the Council members, with the exception of Bloch, are members of the Senate, and could have made the motion to impeach. Apparently there are two reasons for the refusal of the council members to go through the Senate: one is that Bloch then couldn't have cast a vote against Frank, and the other is that the Senate had just refused to impeach him.

There were six votes on the Council to impeach Frank. I, as a student, would have been far more convinced of Frank's alleged wrong-doings were it the Senate, with a two-thirds vote of about 35 to 40 senators casting their ballots for impeachment. I am getting tired of watching student leaders have as their only purpose the destruction of other student leaders, especially those as popular as Frank Jackson. Frank is the only student official who has made it his business to get around and speak to students, to tell them what is going on in Polity and the University and to hear their gripes. Everyone else in Polity wins their offices and sits on the second floor of the Union, pretending they're important people and playing politics with our money.

I am not so naive as to believe that Frank has had himself apart of everything going on, and that he has not also participated in the political maneuvering. However, Frank has not done what his detractors have. He has not stolen campaign material, he has not tried to falsely give students police records, and he has not attempted to have "political enemies" thrown out of school. All of these things have been done to him by Bloch and those on the Council — we believe that they are "impartial" and "unbiased" in its actions toward Frank.

During the past two weeks I'm sure that many students have noticed through reading Statesman that Polity has at last settled down to business. True, much of its time was taken up with unpopular sports freeze (which Frank opposed). Some of us take the view that the Black Students United Executive Board and the candidate he was supporting, Randee Brown. I referred to as both a "racist" and accused of using "George Wallace type tactics" in my campaign, for reasons unknown to me. I have investigated the possibility of bringing legal action against Jackson and Brown for those slurs, and have been advised by counsel to first see what the campus governing rules on the matter. Jackson's impeachment saved me from the need to do anything.

I am elated that Frank finally had the nerve to stand up for what they believe is right. During the past Treasurial campaign, my name was smeared by Jackson and the candidate he was supporting, Randee Brown. I referred to as both a "racist" and accused of using "George Wallace type tactics" in my campaign, for reasons unknown to me. I have investigated the possibility of bringing legal action against Jackson and Brown for those slurs, and have been advised by counsel to first see what the campus governing rules on the matter. Jackson's impeachment saved me from the need to do anything.

I do not even know any members of the Board, except for Jackson and Brown. They never said anything to me about giving my side of the story. If there was one to give, nor did they inform me that my name or my position were to be discussed at any meeting. Actually I do not condemn the Board. I respect that Jackson merely used them as he used the rest of us to further his own twisted beliefs. I wonder if the Board looked into account my work to repeal the Health Fee, a de facto tuition decrease, I respect not.

One thing is for sure, Jackson has been perpetuating a huge hoax on the students of this campus. Thank God that it will finally come to an end when the Judiciary rules against Frank. Maybe then Polity can get back to the business of serving the students, instead of itself.

(The writer is Stony Brook representative to the Student Assembly.)

Jackson and Kugler Misuse Polity For Their Own Personal Gains

By WILLIAM R. HARTS

Well, the Council has finally impeached Frank Jackson. Why do I say finally? Just about everybody who has done any work for Polity or the students (or both) in the past, knows about the sleazy tactics and maneuvering which Jackson and his political cronies have employed in order to rid Polity of the people who do not agree with their line of fascism. In most cases, these people have been fighting hard for this has not been stopped previously.

Frank Jackson is an extremely personable fellow, with a great deal of charisma going for him. People that meet him are usually charmed and enchanted by his quick wit and friendly manner. I believe that this is the reason he can win elections in such an effortless manner, and work to get his friends elected in a similar manner. It seems a shame, though, that Jackson cannot seem to use these powers for the good of the students, but rather for his own personal gains. Instead of Polity being the divided, rumbling faction, and restore order. Instead he chose to advance his own political career. Jackson is a born Politician, with a capital "P".

The police use a tactic known commonly as "hard cop" and the "soft cop." The former seems to be the role of Kugler. This man has resorted to tactics such as harassment and physical abuse of women in order to achieve his ends. Once this has done, Jackson can easily move in, and playing the "good guy" can win people over to his side. Unfortunately, many of the real students have realized the existence of this situation, and now only think of Kugler as the Polity joke.

I am elated that Frank has finally had the nerve to stand up for what they believe is right. During the past Treasurial campaign, my name was smeared by Jackson and the candidate he was supporting, Randee Brown. I referred to as both a "racist" and accused of using "George Wallace type tactics" in my campaign, for reasons unknown to me. I have investigated the possibility of bringing legal action against Jackson and Brown for those slurs, and have been advised by counsel to first see what the campus governing rules on the matter. Jackson's impeachment saved me from the need to do anything.

I do not even know any members of the Board, except for Jackson and Brown. They never said anything to me about giving my side of the story. If there was one to give, nor did they inform me that my name or my position were to be discussed at any meeting. Actually I do not condemn the Board. I respect that Jackson merely used them as he used the rest of us to further his own twisted beliefs. I wonder if the Board looked into account my work to repeal the Health Fee, a de facto tuition decrease, I respect not.

One thing is for sure, Jackson has been perpetuating a huge hoax on the students of this campus. Thank God that it will finally come to an end when the Judiciary rules against Frank. Maybe then Polity can get back to the business of serving the students, instead of itself.

Giants’ Fourth Season Victory Is the Bucs’ 23rd Straight Loss

By PAT LEISNER

Tampa, Florida (AP) — Bob Hammond plunged two yards for a touchdown and Joe Danelo added a 43-yard field goal before halftime as the New York Giants hung on to shut out the Tampa Bay Buccaneers 10-0, yesterday, handing the Bucs their 23rd straight loss.

New York’s lone touchdown was set up by a Tampa miscue in the opening minutes of the game. A bad snap by Buc’s center Dan Ryczek went wide right. The Giants then mopped up with Joe DePau and Al Danelo adding a 33- yard field goal before halftime.

The Giants made it 10-0 with 38 seconds left to the half on Dan Danelo’s 45-yard boot. He missed another attempt in the second half when a 32-yard shot went off to the right.

The Bucs rallied for a touchdown with less than two minutes left, but it was called back on an ineligible-receiver call. Then running back Anthony Davis fumbled inside the five.

The luckless Bucs were inside New York’s 15- yard line five other times but could not score. They drove to the four, six, 11 and 13 all in the first half, but were twice held by the Giants’ defense, gave up the ball on a quarterback fumble and had a 20-yard field goal deflected.

They drove to the Giants’ 11 again in the third, but after quarterback Bob Blount was sacked for a 14-yard loss, kicker Alan Leavitt tried another field goal. His second attempt at a 42-yarder went wide right.

The Giants are 4-5. The Bucs are 0-9 after losing all 14 in their 1976 expansion year.

The Bucs first got in scoring range when wide receiver Isaac Hagins returned a punt to midfield. A face mask penalty against the Giants gave Tampa an added boost — the ball at New York’s 35.

But the Giants held, stopping the Bucs short at the four-yard line.

The Bucs managed another drive at the start of the second period but it stalled on the six when New York linebacker Brad Van Pelt picked off a Buc’s pass.

The Bucs scooped up a fumble by quarterback Joe Pisarcik a few minutes later at the Giants 32 and made it as far as the 11 before New York’s defense held.

On their possession, the Bucs got to the Giants 13 and called on Leavitt. But his 26-yard field goal attempt was deflected by safety Ernie Jones.

The Bucs got something going twice in the second half but mistakes stopped them. Defensive back Cedric Brown recovered a Hammer fumble deep in Tampa territory and a 66-yard pass from Blount to Hagins put the Bucs on the Giants’ 25.

But on the next play Blount’s pass was picked off at the two by safety Larry Mallery. The Buc’s final threat ended with less than two minutes remaining when Davis’ fumble was recovered near the end zone by safety Clyde Powers.

Jets Upset by Seattle

New York (AP) — Jim Zorn pitched a pair of touchdown passes and Seattle’s defense choked up its first shutout ever as the Seahawks beat the New York Jets, 17-0, yesterday.

Zorn connected on 14 of 27 passes for 219 yards. He hit running back Don McConkey with an 18-yard scoring pass to complete a 66-yard, 10-play drive with the opening kickoff, then found running back with nine-yarder at the end of the first, 17-yard, six-play march midway in the third period.

John Lerpold kicked a 33-yard field goal early in the fourth period. The Seahawks’ kicker missed on attempts of 33, 43 and 50 yards.

The Seahawks pushed the Jets all over the field and totally dominated the game from the outset. The closest the Jets came to scoring was with their possession, “when Pat Leahy missed a 46yard field goal try.”

In a 46-second span, starting at quarterback for New York in place on injured Richard Todd, completed only two of nine passes for 20 yards before rookie Matt Robinson replaced him in the third period.

Tarkenton Fractures Ankle

Bloomington, Minnesota (AP) — Quarterback Fran Tarkenton suffered a fractured bone in his right ankle yesterday in the third quarter of the Minnesota Vikings-Cincinnati Bengals game.

At the time of the injury Tarkenton was hospitalized for a couple days and had only a “very, very slim” chance of playing again in the 1977 season. He said a cast would be placed on the lower right leg and that Tarkenton would need crutches.

The injury was described as a fracture of the fibula, a non-weightbearing bone which is the smaller of the two bones in the lower leg.

It was the first major injury for the 37-year old Tarkenton, who is in his 17th NFL season and holds most of pro-football’s passing records. He failed to start last season against Pittsburgh but could have played if needed.

Tarkenton dropped back to pass late in the third quarter and was slapped away from Cincinnati’s Gary Burley when his right leg crumpled under the tackle by the 265-pound defense end.

“I tried to plant his leg and spin,” said Burley. “He was going down on a spin when I hit him — I had my weight on him when he went down. There was no way I could stop and let his leg out.”

“I hate to be the one to hurt Fran Tarkenton,” said the second-year Minnesota coach Bud Grant declined to discuss the injury.

Out-of-Town Scores

Baltimore 31, Buffalo 19; Pittsburgh 36, Cleveland 31; Atlanta 17, Detroit 6; Miami 17, New England 5; Washington 17, Philadelphia 14; San Francisco 10, New Orleans 7; Chicago 28, Kansas City 27; Los Angeles 24, Green Bay 6; Denver 17, San Diego 14; Oakland 34, Houston 29; Minnesota 42, Cincinnati 10; Tonight: St. Louis at Dallas.

Rangers Beaten by Flames

New York (AP) — Bobby Lalonde and Ken Houston scored goals in a 49-second span of the third period last night, giving Atlanta a 5-2 victory over the New York Rangers and ending the Flames’ road wireless streak at six games.

Don Murdoch’s goal from a sharp angle with 2:16 left in the second period but it stalled on the six when New York’s 35.

But on their possession, the Bucs got to the Giants 13 and called on Leavitt. But his 26-yard field goal attempt was deflected by safety Ernie Jones.

The Bucs got something going twice in the second half but mistakes stopped them. Defensive back Cedric Brown recovered a Hammes fumble deep in Tampa territory and a 66-yard pass from Blount to Hagins put the Bucs on the Giants’ 25.

But on the next play Blount’s pass was picked off at the two by safety Larry Mallery. The Buc’s final threat ended with less than two minutes remaining when Davis’ fumble was recovered near the end zone by safety Clyde Powers.

Brockport in Volleyball Finals

Albany, N.Y. (AP) — Brockport State College, just-crowned champions of women’s college volleyball in New York, advances to the northeastern regionals at Oswego next weekend.

The Bucs, who defeated St. John Fisher three games to one to win the state championships at nearby Siena College Saturday.
Langmuir A-3's Victory Is Especially Fulfilling

By PAUL NEEDELL

Coming into Saturday's opening round playoff game against Gray A-3, Langmuir A-3 had more to think about than the game itself. It was Gray A-3 which knocked Langmuir out of the playoffs last year and it is Gray A-3 that Langmuir will play in the round for the McDowell Cup.

"This is kind of a grudge match," said Langmuir A-3's Dave Siegel.

Terms such as "playing for blood" were heard from Gray's side of the field before the game started, confirming the rivalry. But no blood was spilled. It was just a closely fought game won by Langmuir A-3, 13-7.

Both defenses dominated play in the first half. On Gray's first possession Langmuir's Ben Berkowitz picked off a Frank Fabian pass and returned it into Gray territory. A Mitch Yellin field goal attempt went wide and the half turned into a punting battle between Mike Shapey and Yellin. The battle for field position was fought evenly as the half ended with neither team scoring.

Going into the second half both teams looked for a big play to get on the scoreboard. Langmuir got it with the second half kickoff return. Jim Castellaneta brought the kick back to Gray's 26-yard line with the help of a diving tackle penalty. Two plays later Rick Halpert hit Castellaneta with a 30-yard touchdown pass. Yellin added the extra point to give his team a 7-0 lead.

Gray tried to counter quickly, but after a couple of short completions by Fabian its drive stalled. Shapey's 50-yard field goal try fell just short, leaving Langmuir with the ball and the momentum. Langmuir's drive also stalled and Yellin also missed on his field goal try.

It was Langmuir's defense which then came up with the big play. As Fabian was rushed by incoming linemen, he threw a pass deep over the middle. The ball fell gently into the arms of Rick Halpert, who returned it to the Gray 25. A pass interference penalty moved the ball to the 13. Halpert then hit Sabatino from 13 yards out to increase Langmuir's lead to 13-0.

Gray quickly tried to get back into the game. Fabian completed first down passes to Stan Jocz and Scott Brewer. With just 24 seconds to go Brewer grabbed Fabian's pass in the end zone. Shapey's kick was good, but Langmuir held the ball for the remaining seconds, and it was all over.

"We just couldn't get our offense going," said Shapey after the game. "We should have rushed three men instead of two. He [Halpert] had too much time to throw."

And Langmuir got its revenge. "It's a definite rivalry between the two teams," said Shapey, "but we're so far out in front for the McDowell Cup that we weren't too worried about this one game."

Langmuir's Halpert felt a little more strongly about it. "We hate each other," he said. "No, let's call it respect."

Unseeded, Inexperienced James A-2 Advances

By PHIL HOROWITZ

Gershwin B went into Saturday's intramural football game as an 11-point underdog and a No. 5 seeding from the Intramural Office. James A-2 went in as a team that fielded all freshman starters, a 7-2 record and no ranking for the playoffs.

With everything seeming to go against James A-2, including size, they still fielded all freshman starters, a 7-2 record and no ranking for the playoffs. With everything seeming to go against James A-2, including size, they still controlled the game, defeating Gershwin B, 20-12.

"They were out very cocky," said A-2's quarterback Pete Anzalone. "We just wanted it more than them."

The James A-2 defense is led by Pete Anzalone. Anzalone played high school football as a safety but plays safety and middle linebacker Paul Stinglin. "We weren't too worried about this weekend," said A-2's Slotback Shapey after the game. "Every starter on our team is a freshman," said Anzalone. "This was not a planned team. We were just lucky because we got a lot of good athletes."
