A university should be a place of light, of liberty, and of learning.
Benjamin Disraeli
Be true to yourself. Make each day a masterpiece. Help others. Drink deeply from good books. Make friendship a fine art, and build a shelter against a rainy day.

Joshua Wooden
I have had playmates, I have had companions, in my days of childhood, in my joyful schooldays, all are gone, the old familiar faces.

Charles Lamb
Everything has its beauty . . .
... but not everyone sees it.
Confucius
Change cannot be made without inconvenience...
. . . even from worse to better.
Richard Hooker
A good digestion to you all.
Shakespeare

And gazed around them to the left and right with the
prophetic eye of appetite.
Byron

STATE UNIVERSITY OF NEW YORK
AT STONY BROOK

OFFICE OF THE PRESIDENT

May 19, 1974

STONY BROOK, N.Y. 11790

To Members of the Class of 1974:

A historian reading this volume of Specula years from now might well conclude that your college career represented a unique transitional period both for Stony Brook and for higher education generally. The universities that were expanding and full of student unrest in the 1960’s were moving toward consolidation and mature concentration on realistic objectives in the 1970’s. It has been an exciting time on any campus, even more so at Stony Brook where the last few years have seen the completion of the major segment of a construction program that, at least in its attendant difficulties, often seemed endless. More often than not, these swift changes have demanded a pioneering spirit with a full shore of fortitude and even hardiness.

We hope you will look back on your college years, as this yearbook helps you to recall them, as a time when you made many lasting friendships and lasting commitments to creative, important goals. We hope both you and the campus grew together and together prepared for excellent and mature service to society.

You have also seen a pivotal time in the history of the University. Though the changes are still in preliminary stages, subtle and difficult to detect, the pendulum of campus development has now reached the point where major attention is being directed to the processes of stabilization and refinement. Everyone’s concern during the last year or more has been focusing on means of giving the campus those vital finishing touches that can do so much to improve our living and working environment.

It probably will be said in the future that you were at Stony Brook during the time when we completed the childhood of our institutional existence and were finally coming into our own as a pre-eminent center of higher learning. (Indeed, even as you prepared to graduate this spring, we received a report from the Middle States Association declaring that Stony Brook already has “succeeded outstandingly well” in becoming “an institution of national stature in the time-honored and traditional terms of the outstanding private universities and of such public institutions as Berkeley, Michigan, and Illinois.”)

As you now come to look at Stony Brook from an alumni perspective, we hope you will maintain your active relationship with the campus. Through the Alumni Association and its expanding program of activities, and through your own personal ties to the campus, the University will offer its resources to aid you in what I hope will be your lifelong continuing pursuit of knowledge. In turn, the University will gain from your achievements and hope to draw upon your perspective and experience.

Stony Brook and you will always remain a part of each other. As I extend our warmest congratulations on your graduation, may I assure you that our good wishes will be with you always.

Cordially,

John S. Toll
President
Lawrence Deboer — Director of International Education

(L to R): David Fortunoff — Asst. Dir. of Housing, Gloria Seifman — Coord. for Residential Prog., Richard Solo — Dir. of Residential Coll., Roger Phelps — Dir. of Housing

Sei Sujishi — Prof. Chemistry (Chairman)

(L.-R.): Anthony Bastin — Dir. Physical Labs, Lester Paldy — Asst. Prof. of Center Continuing Ed

Open House
If Stony Brook was a county and it had an annual county fair, it would have been the Open House celebration of October 15. It was an extra special event this year, as it also was a celebration of the State University of New York's 25th anniversary. Among other things besides beer and good feelings, there was an enormous birthday cake, a fence painting contest, an exhibit of moon rocks and old fashioned ragtime band. Evidently it was quite a success as 7,000 students, parents, faculty members and community members flocked on the campus to participate in a very special day.
Safety Demonstration

A 19 year old freshman had died and doubtlessly many of us pictured ourselves in his place. He was a victim of campus negligence and we were determined never to have it happen again. 300 angered students and faculty members met in the Union six days after Sherman Raftenberg’s tragic death to draw up safety demands. The five hour meeting ended with forty demands for improvement of campus safety conditions. These demands were submitted to President Toll who responded to them at a meeting of 800 people a few days later.

Eighty thousand dollars of emergency funds would be allocated, said Toll and to further eliminate the possibility of any other campus tragedy which might befall a student, a permanent campus safety coordinator would be named. Said one senior, "I think Toll was leveling with the students, but he's got administrative hassles in bringing changes about."
Oktoberfest

It's been the highlight of the year in Germany for generations but Stony Brook students were just beginning to enjoy it. The third annual Oktoberfest was a myriad of oompfh pah-pah music, people, and beer. For two nights, the usually dormant Tabler Quad cafeteria saw probably half of Stony Brook's resident population happily partaking in the newest campus annual event.
Blood Drive

Freshman Class Meeting
Dick Gregory

They came to see the former presidential candidate, the comedian, and the social commentator. What they got was hysterical with laughter, reflective with thought, and a feeling of shock — all created by Dick Gregory's incredible reflections of the world. Comedy topics ranged from President Nixon and Watergate, to the energy crisis and to race relations. What students though will remember best from this incredible night with an incredible man may be something that he said seriously, "Never before has the fate and destiny of this country depended more on you young folks."
Jim Bouton

He has enraged and entertained almost all with his book *Ball Four*, and now the former baseball star was a sportscaster on a New York City television station. At Stony Brook, students coming to hear Jim Bouton speak were also very much entertained by him. "He was one of the best speakers I've ever seen," said SAB speaker chairman Teddy Klinghoffer, as Bouton left the stage in the gym.
Betty Friedan

She was a legend. She was the first of many to help spearhead one of the major movements of the 1960’s and 70’s, and she was coming to speak to Stony Brook. Wearing the symbol of the women’s movement as a pendant on a chain around her neck, Betty Friedan, author of The Feminine Mystique, gave her impression of the past, present, and future of the cause that she believed so totally in. A woman’s role in life can be changed in three phases, she told 500 people in the Lecture Hall. First a raising of consciousness must be achieved, she related. Then there must be a commitment to action, she said. “Currently, we are on the crest of that wave,” she said with a smile on her face.

Israel Support Meeting

A war of survival had started in the home of Judaism on the Jew’s highest holy day. The Yom Kippur war between the Arabs and the Israelis had started and within days people all over the world had come to Israel’s support. A rally to raise funds and discuss the unfortunate situation was held at Stony Brook in the shaded plaza of the Earth and Space Sciences Building. Said Hillel president Allen Stern, “Now is the time to do something. There may not be another time.”

Baseball
Coming off their most successful fall season, with a record of 6-4, the Stony Brook Varsity Baseball team achieved notoriety in many ways. Marking the first time ever that the team went over the .500 level was just one example of Stony Brook’s newest success story. Another success story was pitcher Chris Ryba, who was drafted by the New York Mets. Coach Ron Smoliak has done wonders with his young squad, as he and senior Mike Carmen are the only four year veterans. So watch out, the Stony Brook batsmen are full of youthful excitement and dedication for the future.
Basketball
Despite the fact that the basketball team lost several important players from 1973, Coach Donald Coveleski felt that the team would be in for a few pleasant surprises. The team, faced quite a rough schedule in 1974, but was highly optimistic and had a right to feel so. The men returning and the new recruits have made up for any gaps on the court. It looks as though Stony Brook came through with another year of fine basketball, as has been our tradition.
Although the swim team was without Coach Ken Lee for more than half of the 1973 season, they finished the year as Division III Metropolitan Champions. The team is full of promising freshmen and is losing very few seniors. This year, Coach Ron Harris has taken the team to as many victories as is humanly possible. Training not only over Thanksgiving, but over Inter- session as well, shows the great dedication of the swim team. This dedication and hard work is shown at each meet when Stony Brook easily defeats all opponents!
Swimming
Women's Field Hockey

A vastly improved women's field hockey team already has its hopes set on competing in the next season's New York State Invitational Tournament. They have every right to feel this way, after bouncing back from a 2-3-2 record last year to a beautiful 6-2-2 record this season. Coach Marge Van Wart produced a finely conditioned and highly skilled squad that is quickly gaining a reputation as one of the best teams on Long Island. With only two women graduating this year the future is bright for the aggressive playing stars who perform in one of the roughest sports open to women.

Crew
Stony Brook's winningest varsity team, the women's tennis squad, is making great strides to become the university's team of the future. Compiling a 7-1 record against such tough local opponents as Brooklyn and Hofstra, the women's tennis stars also gained valuable experience by competing in the Women's Eastern Intercollegiate Tournament at Princeton, playing against the top competition from colleges and universities from all over the Mid-Atlantic region. According to Coach Sandra Weeden, the outlook for the next two years is excellent, since there was only one junior and one senior on this year's team. Consequently, she expects to have a tougher schedule for next fall, but a schedule in which her experienced team should perform with even greater success.

St. Johns — 1 STONY BROOK — 4
Soccer
Disappointment met with Coach Ramsey and his '71 soccer players this fall. Accustomed to winning seasons, they were downcast at this season’s 5-9-1 record. However, inexperience was a factor in this year’s performance, since 14 out of the 21 men were freshmen. Next season should be a different story, as the experience gained now can be put to good use in the future. No wonder Coach Ramsey is looking forward to bigger things next fall.
Under the leadership of Coach Marge Van Wart, the synchronized swimming team worked hard this year. Their first competition was the Eastern Intercollegiate Synchronized Swimming Stunt Competition, followed by Routine Competition, at Geneseo. Highlighting the season was their final performance right here on campus. Each year the team puts on a synchronized swimming show for the campus community, which proves without fail to be one of the most entertaining events of the year.
For the first time ever, the Stony Brook gymnastic team enjoyed true success, as it emerged victorious twice under Coach Carolyn Cross. Although the team's 1973 record was 2-5, the gymnasts are all very enthusiastic about this year's chances for a winning season. For a team that must go through two months of rough competition on the balance beam, uneven parallel bars, vaulting horse, and free exercise, every season provides the opportunity to show their unique skills, with hopes for next season to be even better than this one.
Women's Softball

Always one of the hardest working teams at Stony Brook is the women's softball squad, and this year was no exception. Under the expert guidance of Coach Sandra Weeden, the women players made it all the way to the 1973 State Championships, where their pre-season conditioning proved to be a big asset. Competing against tough teams was a real challenge to the Stony Brook women, but as usual, they faced the opposition head on, while their record proves once again that women's softball is here to stay.
Track
Squash
Things did not go well for this year’s Stony Brook football club, as the club disband in mid-season. University support for football has always been a major problem at Stony Brook, and this year was to become the point-of-no-return. At present, no decision has been made about the upcoming season, although many students would like to see the return of the football club.

"What's a Specula?", a girl asked me one day in the office.
"It's the college yearbook," I responded.
"You mean to tell me Stony Brook has a yearbook?"
"Yes... not only that, it will be ready later this Spring."
"You're putting me on..."

Well here it is, The 1974 SPECULA... signed, sealed and delivered on time! (I hope)

This year's Specula came about through the efforts of a dedicated group of students who cared enough not to let the apathy on this campus scrap the yearbook. We had to overcome a number of obstacles, but the staff delivered. They did a job and did it well. Thanks to all of you who lent a hand in this production.

The Yearbook staff offered their interpretation of this past school year. We hope that it recalls 1973-74 as you remember it. I'm sorry we could not capture more events and people than we did. It was not possible due to time and budget constraints.

I'd like to thank some people who worked behind the scenes. Carol Fox and Jim Simmonds of Taylor Publishing Company — thanks for being there whenever we needed you. Special recognition must go to Aaron Jarit and Bernie Friedman of Carol Studios for all your invaluable assistance. From photo quality to all the extra help given us, you were just super. We were particularly fortunate to work with such fine people, and that includes you too, Bob.

Good luck to the class of '74.
