THE FACULTY REVIEW

The Faculty Review is published by the Office of University Affairs, State University of New York Health Science Center at Brooklyn. The Review includes the following categories:

Elections, appointments and awards—faculty members should send a photocopy of the award letter, and other substantiating correspondence, to University Affairs.

Grants—are listed under principal investigator, following written notification from the Office of Research Administration. Faculty at affiliated hospitals should notify University Affairs directly concerning grants received. Written notification should include the recipient’s name and department, title of project, grantor, amount and nature of grant (new/renewal/continuation/supplement).

Publications—send reprints or photocopies directly to University Affairs. For books, book chapters and monographs, submit one photocopy of the page(s) displaying title of book and/or chapter, author’s name, pagination, volume, publisher, date/place of publication. For articles, send reprints or photocopies of the publications as they appeared in print. Ensure that the name of the journal/magazine is noted on the copy, as well as the volume, number, date, pagination, name of author, and title of the article. Abstracts and letters to the editor are not included in The Faculty Review.

Seminars and speaking engagements—submit a photocopy of letter of invitation, and any other supporting documentation.

Always include a telephone number on correspondence, so the Review editor may contact you, if necessary.
