

HANDS ON

Introduction to Google Applications

Friday, February 6th
Farmingdale State College
9:30AM-12:00PM

Google Apps is a collection of web-based programs that are free to use and require no installation. The applications include communication tools, such as Gmail, Google Talk, and Google Calendar and productivity tools, such as Google Docs (text files, spreadsheets, and presentations). Customizing your start page is also available via iGoogle. With Google Apps, collaboration and sharing content is possible in a variety of settings.

In this hands-on class, you will learn all about Google Calendar, Gmail, office suite web applications, Docs and much more. We will cover creating an account, calendar functions, applications available and more. Bring your questions.

Long Island Library Resources Council
Presents:

FEED ME: MANY MORSELS OF RSS

Friday, March 6th

**Farmingdale
Public Library**

12:30PM-3:00PM

A now established element of the internet, RSS is used by millions, though often unbeknownst to them. The presenter will offer a detailed introduction to RSS and its application for notifications, announcements, and search and discovery. The session will focus on uses for individuals and different types of libraries. Topics include ego feeds, current awareness, events calendars, table of contents notifications, and more--involving a wide variety of web applications.

Presented by: Derik A. Badman, Digital Services Librarian, Temple University Libraries

Long Island Library Resources Council presents:

Rethinking Library Resource Sharing

The Future of Interlibrary Loan Services

Tuesday, March 24th

**Farmingdale
Public Library**

9:30AM-12:00PM

Guest Speaker:

**Beth Posner
Head of ILL Services,
Mina Rees Library,
CUNY Graduate Center**

In order to remain relevant, useful, and funded, traditional ILL services need to continually evolve. Given new realities, such as the rise of online information, portable reading devices, and changing user expectations, the Rethinking Resource Sharing Initiative is working to initiate discussions about how libraries can help people to access information, wherever it may be.

Join us for a consideration of why and how ILL services are changing and what ILL practitioners can do to prepare themselves and their departments for the future. The IDS (Information Delivery Services) Project will also be discussed.

The Long Island Library Resources Council-Regional Digitization Program presents,
"ContentDM: Bringing Your Digital Collections to the Next Level"
Intermediate/advanced ContentDM training

Date: April 3, 2009

Time: 9:30 a.m.– 3:30 p.m.

Place: Farmingdale State College-Greenley Library, Computer Room

Presenter: Joyce Rambo, Reference & Digital Collections Librarian-NYLINK

This intermediate/advanced CONTENTdm class builds upon the foundation class, "How to Create Digital Collections Using ContentDM." Through a series of demonstrations and hands-on exercises, you will expand your breadth of ContentDM knowledge.

After taking this class you will be able to:

- * Customize the "out-of-the-box" Web interface.
- * Build full-text, searchable PDFs.
- * Create "canned" queries.
- * Use the Multiple Compound Objects Wizard.
- * Create a searchable Postcard Compound Object.
- * Import and describe digital files using a tab-delimited spreadsheet.
- * Enhance your ContentDM collections.

Prerequisite: "Hands-on"-How to Create Digital Collections Using ContentDM.
