Subject Two events in Provost's Lecture Series: Today 4pm and
Friday 5pm

To: All Faculty and Staff

Colleagues,

I am pleased to announce that we have two events in the Provost's
Lecture Series this week.

This afternoon Bruce Mazlish will speak on "Globalization - An
Endless Frontier?" at 4:00 in Lecture Hall 2 of the Wang Center.
Mazlish is Professor Emeritus of History at MIT and the author of The
Uncertain Sciences and The Fourth Discontinuity: The Co-Evolution of
Humans and Machines. This event is co-sponsored by the Center for
Global History.

On Friday, October 1st, we are pleased to welcome back to campus
alumna Carolyn Porco (B.S. 1974). Dr. Porco is the Imaging Team
Leader and Director, Cassini Imaging Central Laboratory for
Operations at the Space Science Institute in Boulder, Colorado. She
will speak on "In Orbit! The Voyage of Cassini to Saturn" at 5:00
p.m. in the Wang Center Theatre. A reception will follow the talk.
This event is co-sponsored by the Department of Physics and Astronomy
and the Alumni Association.

Please pass along this information to any students or members of the
community you feel may be interested in attending.

- Robert McGrath, Provost and Executive Vice President for Academic
Affairs
