

Current Management of Vascular Disease: From Golden Boomers to Octogenarians

CME Dinner Symposium

April 3, 2012

Larkfield Manor, 507 Larkfield Road, East Northport, NY

Please RSVP to Carlyn Mathers at (631) 444-2037

I want to personally invite you to a dinner symposium organized by the Division of Vascular Surgery and the Division of Geriatric Medicine at Stony Brook University Medical Center

Current Management of Vascular Disease: From Golden Boomers to Octogenarians

The goal of this CME Program is to increase awareness and provide education on the diagnosis and management of vascular disease in the elderly population. We have assembled an exciting program with a select faculty panel who will present their experience and participate in an open discussion with the audience. I am looking forward to seeing you on April 3rd.

Apostolos K. Tassiopoulos, MD
Chief, Division of Vascular Surgery

6:30 – 7:00 pm Reception

7:00 – 7:10 pm Prevalence of Vascular Disease in Senior Populations

Learning Objectives

At the end of this program, attendees will be able to:

1. Recognize the differences in the prevalence and impact of vascular disease in elderly patients compared with the general population
2. Discuss modern treatment modalities for vascular disease that are preferable in elderly patients
3. Define established "best practices"

Disclosure Policy

All those in control of CME content are expected to disclose any relevant financial relationship with the provider of commercial products or services discussed in the educational presentation or that have directly supported the CME activity through an educational grant to the sponsoring organization(s).

All commercial relationships that create a conflict with the planners, speakers, author's control of content must be resolved before the educational activity occurs.
