

**I. COMPETENCY ASSESSMENT POLICY**

- A. Each MPH Core course in the Master of Public Health (MPH) curriculum aims to develop specific competencies among students through a set of Learning Objectives.
- B. In order to assess how well we are conveying these competencies, the Program requires every MPH student to complete a Competency Assessment Survey at the beginning and end of each Core course.
  - 1. All information from the Competency Assessment Surveys is kept strictly confidential and is not, in any way, used to evaluate a student's academic progress in pursuit of the MPH degree.
  - 2. This information is analyzed only for the purpose of improving the Program and maintaining accreditation by the Council of Education for Public Health (CEPH). The *Graduate Program in Public Health* reserves the right to withhold grades or prevent subsequent course registration for students who do not complete both the pre and post survey.
