But Money Isn't Everything

They say money isn't everything
Then why does life
Need money to survive
They say money doesn't grow on trees
Then how do some people
Get more then others

Why do we borrow for others
But struggle for ourselves
In the process of building for others
We knock down ourselves
Give them everything we have
For nothing in return

They say every man has his price
But what about those
Who can't afford a price
They say money talks
So do those who don't have money
Not have a voice...
