

Dead Memories

By: Olivia O'Neal

All the faces I never want again to see

All the memories I don't want with me

Now they sit forever grayed in my memory

Dead

Memories

All the words I no longer want to hear

All the demons that are my sources of fear

Every last pain for which I've shed many a tear

Dead

Memories

Now they can no longer haunt me

I've left them all behind in a forgotten history

Nothing now can beat me or deceive me

Dead

Memories
