GREETINGS FROM THE DEAN

We began to compile a record of the achievements of Stony Brook’s graduate Students in 1991 and have published an issue each academic year since then. This issue covers the 2002-2003 academic year.

The accomplishments of Stony Brook’s graduate students are quite extraordinary. They include winning numerous, prestigious, national and international fellowships and research grants. Our students have also established an impressive presence in the literatures of their disciplines with publications in many of the best scholarly journals and books. They have achieved recognition in the creative arts with acclaimed exhibitions and performances. Stony Brook’s graduate students also won awards for their excellence as teachers. Our students participate fully in the intellectual activities of their field of scholarship by participation in conferences and workshops. Finally, graduates of Stony Brook’s programs leave us to take up a wide variety of professional appointments. Many of these are Post-Doctoral fellowships or faculty positions at some of the nation’s finest universities. In addition, Stony Brook’s graduates carry the knowledge and expertise that they gained here to many prestigious institutions overseas, thus enhancing Stony Brook’s international reputation as an outstanding research university.

The success of Stony Brook’s graduate enterprise is rooted in the success of the faculty of the University in research, scholarship and creative activities. The international reputation of Stony Brook’s faculty attracts outstanding students to our graduate programs from across the country and around the world. Our educational programs and the opportunities to work with dedicated faculty mentors develop the potential that students bring with them so that they become independent researchers and scholars. Graduate education lies at the heart of a research University and this publication demonstrates the vitality of the research, scholarly and creative activities underway at Stony Brook. The students whose accomplishments make up this document deserve recognition for their achievements and our thanks for what they have contributed to the intellectual life of the campus and to the reputation of our University. The faculty who have guided these efforts and the staff and administration of the University who help to foster an environment in which scholastic excellence is valued and in which outstanding graduate education can take place all played important roles in the successes documented here.

The achievements listed here required hard work by many people and all who contributed should feel a sense of pride in the accomplishments of these students. My congratulations and thanks to all concerned.

Lawrence B. Martin
Dean of the Graduate School
Acknowledgements

The Graduate School would like to extend special thanks to all participating Stony Brook graduate students who have made this publication possible, the deans for encouraging their respective programs to participate, and the chairs, graduate directors, and graduate secretaries who have taken the time to coordinate and submit the program’s achievements.

The 2003 GRADUATE AWARDS

❖ President’s Award for Excellence in Teaching

This award is made in recognition of excellence in teaching by graduate students. The name of each recipient will be inscribed on Stony Brook’s Roll of Recognition for Teaching Excellence.

Marianne Borroff  Linguistics
Dianne Creagh  History
Theresa Eddins  Sociology
Shannon Lundeen  Philosophy
Andrew Smith  Philosophy
Scott Suarez  Anthropological Sciences

❖ President’s Award to Distinguished Doctoral Students

This award is made in recognition of the following criteria:
1. The candidate’s dissertation and its research base are of outstanding merit, or
2. The student, in conduct of doctoral work made exceptional contributions to the University, or
3. The student, in completing candidacy overcame personal or social handicaps of an unusual nature.

Seth Aubin  Physics and Astronomy
Carola Berger  Physics and Astronomy
Xudong (Deric) Geng  Chemistry
Bonnie Mann  Philosophy
Young-Soo Seo  Materials Science

❖ Dorothy L. Pieper Memorial Purchase Prize

This award is presented to a student in the Master of Fine Arts Program for an outstanding work of visual art. The work winning the Pieper Prize appears on the cover of the Graduate Student Achievements for the corresponding academic year.

Sarah Bielski  Art
The Madeline Fusco Fellowship

This fellowship is awarded to outstanding women or minority doctoral students completing a dissertation.
