

The Pearson eText platform is Pearson Education's premier electronic book technology (eBook), designed to meet the varied requirements of learners in the classroom. Beyond providing perfect fidelity to your printed textbook, the Pearson eText platform offers many easy-to-use features. Such features include intuitive navigation controls, enhanced searchability, personal highlighting, bookmarks and note-taking. Many Pearson eTexts are available for viewing on an iPad via the Pearson eText App.

You can find out more about the App online at:

<http://www.pearsonhighered.com/etextforipad/>

and you can download it from the iTunes App Store online at:

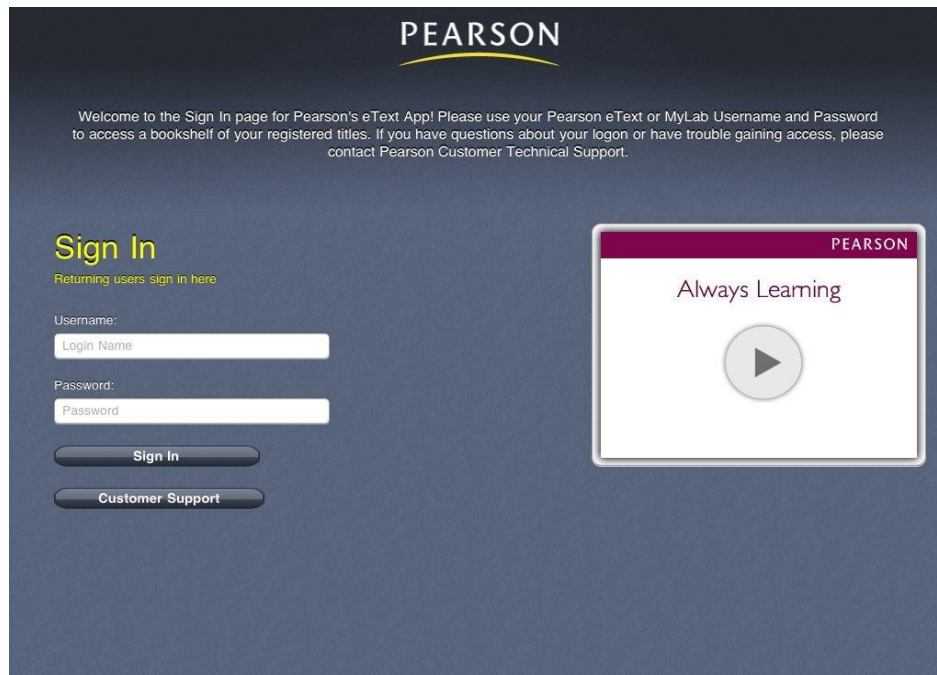

<http://itunes.apple.com/us/app/pearson-etext/id410315894?mt=8>

Getting Started:

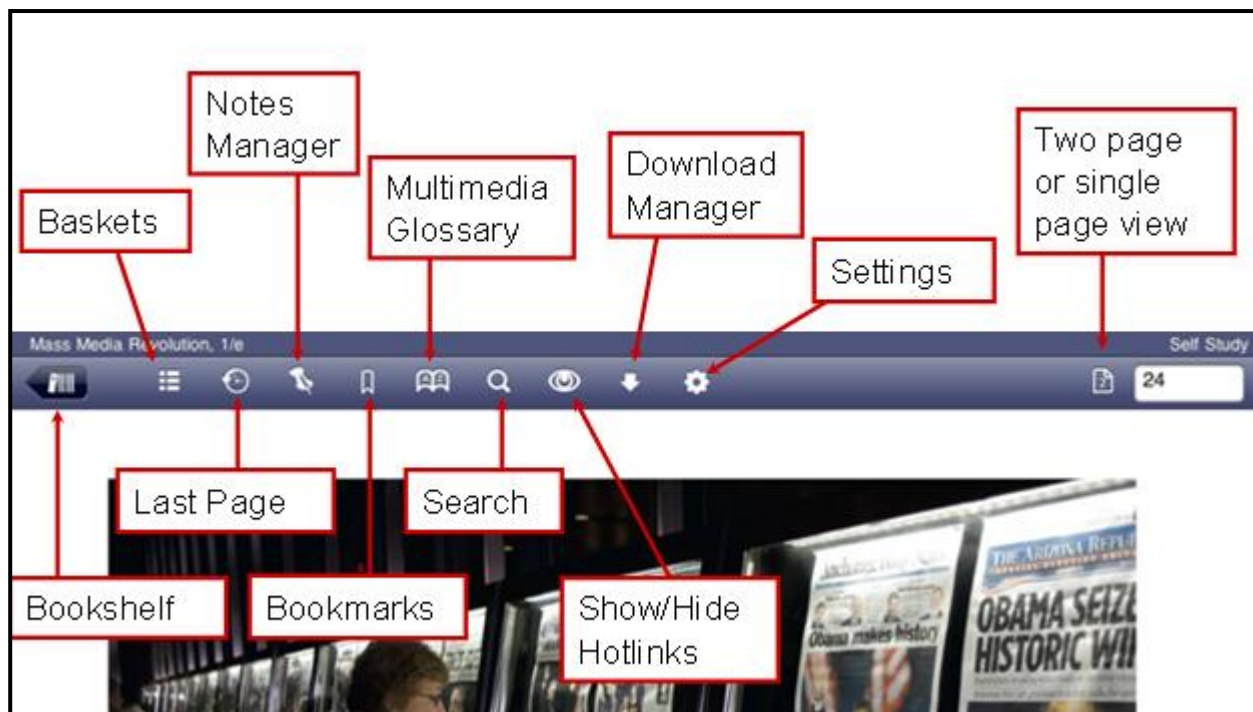

Begin by downloading the Pearson eText App for the iPad by downloading it from the iTunes App Store online at: <http://itunes.apple.com/us/app/pearson-etext/id410315894?mt=8>

Sign-in to the App using your Pearson eText or MyLab Username and Password.

How Do I Use it?

Brief View of eText App Toolbar

Search within the text

At the top of the screen, there is a search icon (Magnifying glass). Click on it and enter your search terms to easily find pages that contain the term you are searching for. Use the grey bar at the bottom of your search to limit the search down to particular chapters and narrow your search.

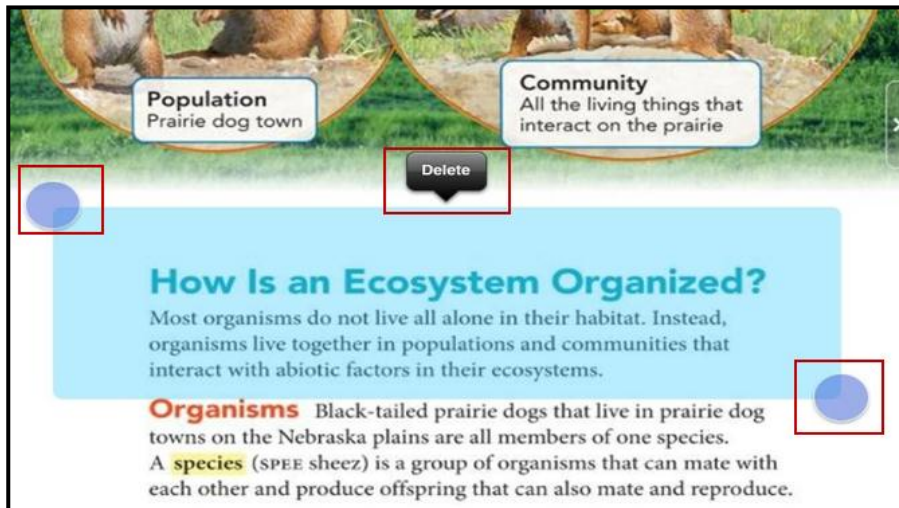

View recent searches

To look back at your most recent search results, click on "History".

Highlight

Highlighting allows you to mark up the book as much as you want while studying. To add a highlight, hold your finger on the page where you'd like to add a highlight. Remove your finger and select "New Highlight". Then use the two blue circles to manipulate the highlight to the desired size. You can move the highlight by placing your finger in the highlight and moving it around.

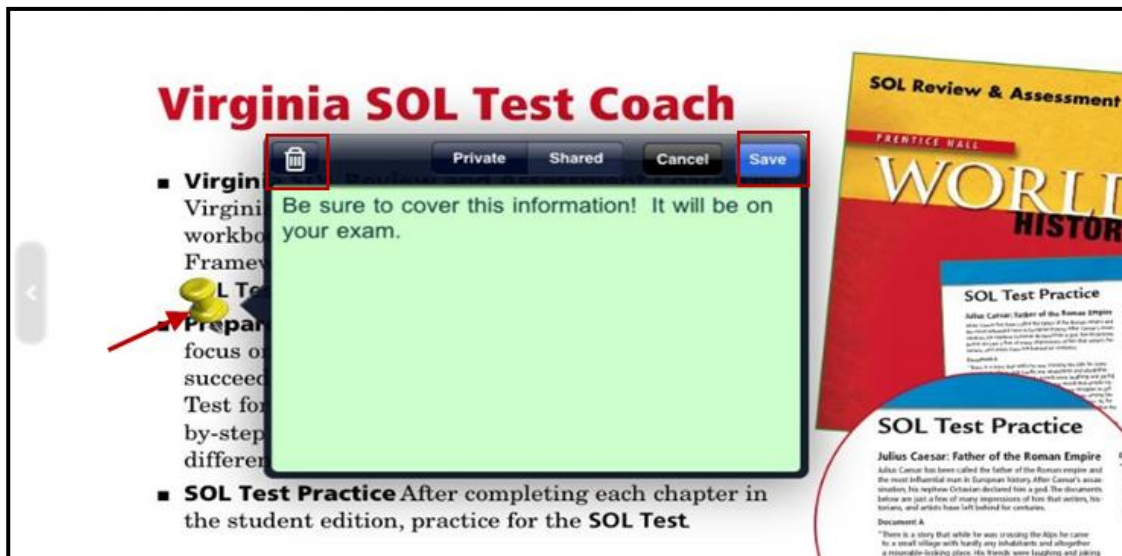

If you need to delete your highlight, hold your finger over the highlighted area until the delete button appears and then select delete.

Take notes

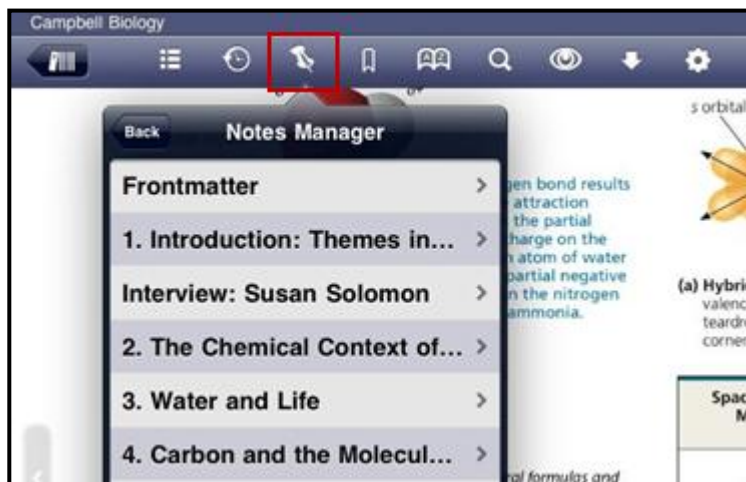

Note taking is a breeze in your eText. To add a new note, hold your finger on the page where you'd like to add a note. Remove your finger and select "New Note". Then type in your note and hit save. Your note will now show up as a thumbtack. Instructor notes show up as a green thumbtack and your notes will show up as a yellow thumbtack.

You can read your notes by double-tapping on the thumbtack. If you need to delete your note, double-tap on the thumbtack and then select edit and then the trash can on the top-left side of the note.

Find Notes

You can find notes by clicking on the thumbtack on the menu bar. This will bring up the Notes Manager, which you can use to search for your notes by keyword, chapter/section, page range or recent notes.

Download Materials to Work Offline

You can download chapters from your books to make them available for offline use. Select the Download Manager Arrow from the main menu (a downward facing arrow) and select chapters to download to make them available offline.

Bookmark

Use the bookmark tool to mark where you left off on your eText or to remember important pages. Click on the bookmark tool to mark the current page you are viewing.

If you want to view all of your bookmarks, click the Baskets icon on the 2nd from left-hand navigation of your eText, and select Bookmarks. To delete a bookmark, go to the marked page and click on the Bookmark tool on the top navigation.

View a Two Page Landscape View

Simply turn the iPad in your hands to a landscape orientation and then select the "2" icon on the far right of the main menu next to the page number field. To return to a one page view, turn the iPad in your hands to a portrait orientation.

View Multimedia:

If your text includes multimedia, there will be embedded web "hotspots" on the text pages. Simply click on the hotspot to view the associated media.

Access more help

For more help using your Pearson eText, go to the "Help" located at the bottom of the bookshelf or go to: <http://247.pearsoned.com>
