January Photos

In this issue's [photo gallery](#), there's no hibernating at Oswego during winter break: skating and running, tennis and basketball drew community members to campus, which hummed with lake-effect research, a winter ecology class, scholarly meetings, workshops, construction and athletic competitions. If you would like to submit photos of timely activities for future issues, email pictures with a brief caption to proffice@oswego.edu.

Tyler renovation to improve student experiences

Tyler Hall, age 46 and counting, will go into a long-planned construction cocoon after Commencement in May, emerging in fall 2015 as a 21st century home for the college's visual and performing arts. [Read more >](#)

Lake-effect researchers share excitement

A banner year for lake-effect snowstorms has delighted researchers from SUNY Oswego and partner universities, blanketing a \$4 million National Science Foundation project in dramatic weather phenomena and delivering a storm of media coverage. [Read more >](#)

Faculty, students receive campus grants

Faculty and students will commence work on 26 scholarly and creative projects this semester with funding through campus grants. [Read more >](#)

College receives \$7.5 million gift, largest in campus history

SUNY Oswego President Deborah F. Stanley announced this month that the college has received the largest single gift in its 153-year history: a \$7.5 million gift from the estate of Oswego County resident Lorraine E. Marano. [Read more >](#)

System taps Oswego's MBAs for debut of Open SUNY

Oswego's nationally ranked online master's in business administration and MBA in health services administration joined only six other degree programs in the soft launch of Open SUNY. [Read more >](#)

People in Action

In this issue, read about a computer science professor's honor, a physics professor

Quest 2014 goal: 'Quality plus quantity'

Quest, the college's day to celebrate research and scholarly and creative activity, returns April 9 for its 35th edition with new coordinator Norm Weiner emphasizing a goal of "quality plus quantity." [Read more >](#)

Spotlight

Meet Dan Laird of Campus Technology Services, man of many skills and interests, from graphic design to technology, cooking to campus history — in this issue's [Spotlight](#).
