Alumni Scholarships Awarded to Seven Juniors

Seven juniors at the College of Technology have been selected to receive $1,000 Alumni Scholarships.

Named Alumni Scholars are Kyle Baratier, Gretchen Genter, Judith Holzer, Walter Kielkowski, Kathleen Saxby, Ralph Schmidt and William Stivers III.

The funds for the scholarships were provided from income of contributions made by the college’s alumni to the College of Technology Foundation at Utica/Rome, Inc.

Baratier is studying business/public management at the College of Technology.

He is a 1985 graduate of Jefferson County Community College where he earned an associate degree in business administration. With a 3.82 average, he was a President’s List student and received the Association of Marketing Education Award. He was also chosen by the faculty as the winner of a scholarship presented by a local bank.

In 1980, the son of Paul and Nancy Baratier of RD #1, Parish, graduated from Mexico Academy and Central School.

Genter was valedictorian of the 1985 graduating class at St. Elizabeth’s Hospital School of Nursing. With a 3.9 average she was named to the school’s honor roll. She is continuing her nursing studies at the College of Technology.

At General Brown High School, Dexter, where she graduated in 1982, she was a member of the National Honor Society, the Key Club, the JCL Latin Club and played in the school band.

Genter is the daughter of Robert and Mary Alice Genter of Brownville.

Holzer, the daughter of Robert and Ida Mae Holzer, 3680 Howland Street, Tribes Hill, is studying computer science.

She also studied computer science at Fulton-Montgomery Community College and was the treasurer of the Computer Science Club. A Dean’s List student, she maintained a 3.92 average and was named to Phi Theta Kappa honorary fraternity.

Holzer is listed in "Who's Who Among Students in American Junior Colleges" and "Who's Who Among American High School Students."

She graduated from Fonda-Fultonville Central School in 1983.

Kielkowski received an associate degree in nursing from SUNY Agricultural and Technical College at Alfred and is continuing that program at the College of Technology. He also attended Suffolk Community College. During his first two years of college, he was a member of the Nursing Club, the dormitory council and the baseball team.

A graduate of Riverhead High School, he is the son of Walter and Joan Kielkowski, 114 Fairway Avenue, Riverhead. Before entering the College of Technology he was employed at St. Charles Hospital, Port Jefferson.

Saxby is studying business/public management at the College of Technology after receiving an associate's

College Begins Two Joint Admissions Programs

The SUNY College of Technology continued its streamlining of the transfer admissions process by recently establishing joint admissions programs with Mohawk Valley Community College (MVCC) and the Utica School of Commerce (USC).

An agreement for a joint admissions program between MVCC and the College of Technology was announced December 19.

The program assures students entering Mohawk Valley Community College that they can complete a four-year college education in a parallel program at the College of Technology. "Students will continue to earn degrees from both colleges," said Dr. Peter Cayan, president of the College of Technology. "The associate degree will be earned from Mohawk Valley and the bachelor's level study completed at the College of Technology. Because the program is clearly outlined to incoming freshmen, duplication of courses, or lack of necessary requirements sometimes encountered in a transfer, will be eliminated."

Dr. Michael Schafer, president of MVCC, said, "While transfer between MVCC and the SUNY College of Technology has always been a smooth one, this agreement can only help make the process even better for the student. The students will know when they enter as freshman just what they should take, and in what sequence so that they can graduate four years later. Their admission will not remain in question through the first two years, but will be assured in the freshman year as long as the student keeps his or her grades up to standard."

Those registering at MVCC are not automatically and simultaneously registered at the College of Technology. They must request joint admissions status before entering MVCC. During their final year they must submit an application to the upper division college to indicate an intention to continue their education.

Dr. James Countryman, vice president for academic/student affairs, explained that a place will be reserved for the student in the College of Technology's parallel program and he or she will begin there with full junior status.

"Joint admissions students will attend early advisement sessions to guarantee completion of degree requirements in four semesters," he said. "Representatives of the College of Technology will meet with these students at MVCC to explain our services, answer questions, and encourage them to become acquainted with us by attending selected campus events," he continued.

Dr. Thomas Brown, vice president for instruction at MVCC, said, "This joint admissions agreement is a prime example of two State University units cooperating in a creative fashion to benefit their students and the community. The agreement lessens the uncertainty students may face as they transfer from one institution to the other. The result is an even better opportunity for residents of the Mohawk Valley area to obtain a four-year college education with the quality and affordability of the State University. In addition, the document is a clear indication of the high regard which each college has for the programs and instruction of the other institution."

In February, officials from the Utica School of Commerce, established in 1896, and the College of Technology outlined their joint admissions agreement which will become effective in September.

The program stipulates that students admitted to an Associate of Occupational Studies (A.O.S.) degree program in Business Administration or Secretarial Science at USC are guaranteed admission into the bachelor's level programs in Business and Public Management at the College of Technology. Before beginning at the College of Technology, students must complete the A.O.S. degree and meet the criteria outlined in the joint admissions acceptance letter.

According to John L. Crossley, USC vice president, students who may take advantage of the joint admissions option are those enrolling in the business administration programs of accounting, management and data processing and the administrative secretarial program. An A.O.S. degree may be earned in any of these areas.

Dr. Cayan emphasized that the students will be awarded two degrees. The associate degree will be from USC and the bachelor's degree from the College of Technology.

The process is not automatic, but must be requested. Students must apply for the joint admissions status and must maintain satisfactory academic standing.

Philip M. Williams, president of USC, said the new program eliminates the uncertainties sometimes associated with a transfer between institutions. "Students will know their admission at the College of Technology is certain, if they are successful at the Utica School of Commerce. As incoming freshmen they will also be aware of the exact program of study needed so that duplication or omission of requirements will not slow their educational path."

Utica School of Commerce has a total of 460 students enrolled at the 201 Bleecker Street campus and two extension sites, located in Oneida and Oneonta. In addition to the associate degree programs, students may also earn diplomas in nine one-year options which may be transferred to the two-year courses of study.

Attending the SUNY Confederation reception for legislators in Albany March 4th were Allen Styne, Milt Smith, Joann (Harmon) Brochu and Steven Brochu.
College Construction Continues at Marcy Campus

Less than a month before the official dedication of the Marcy campus, the service building became the second structure to be completed and occupied. Finished in mid-October, it contains the college's facilities, shipping and receiving departments.

Despite frigid temperatures and snowcover, Structural Associates, the prime contractor, continued work on the Health, Physical Education and Recreation (HPER) Building. The concrete foundations are nearly complete and the contractor plans to have the steel in place by April 1. The building is expected to be ready for occupancy in less than two years.

Beltrone Construction Company, Inc. of Latham, NY, has been awarded the $12,714,000 contract for construction and sitework of the Arts and Sciences/Technology Building. Early sitework was started this winter. June 15, 1988, is the completion date for the three-story building which will house laboratories, classrooms, and offices for Arts and Sciences, Business/Public Management, Mechanical and Industrial Engineering Technology, and Nursing. It will be adjacent to the northeast side of the ALC Building.

Designed with a clay tile and metal roof, the building will be constructed of the same type brick as the ALC Building. It will have vinyl tile floors and painted gypsum walls. It contains 128,356 square feet of space including corridors, storerooms and bathrooms.

Student housing is still in the design stage. Athletic field construction will complete the campus, which is expected to be fully occupied in 1989. The entire campus project is expected to cost approximately $50 million.

NYNEX's Jim Walsh - One Job is Not Enough

When Jim Walsh leaves his office on the Marcy campus of the College of Technology, he drives home to Syracuse to take on the duties of his other career - President of the Syracuse Common Council.

A systems analyst in the marketing division of NYNEX Business Information Systems Co., Walsh has recently been named as the second NYNEX executive-on-loan to the College of Technology.

In Syracuse government, he was elected to head the Common Council in November, after serving as a councilor for eight years.

Walsh is the second generation of his family to be involved in Syracuse city government. His father, Bill Walsh, was mayor from 1961-69. He later served in the U.S. House of Representatives.

Walsh said, that while it will be quite a challenge having two important jobs in two communities nearly 60 miles apart, the opportunities for personal growth and career development more than offset the difficulties. "I believe both the college and the city will benefit with a little extra effort on my part," he said.

For the next year and a half, he will remain assigned to the College of Technology. The executive-on-loan program is part of the support services provided to the college by NYNEX Business Information Services through the industry/education cooperative venture which established the Telecommunications Institute.

In addition to his position as director of the Institute, Walsh is a faculty member, teaching and advising students.

He said the assignment allows him the opportunity to see the whole telecommunications picture. Having worked in the marketplace for seven years, he is aware of the personnel needs of industry. In the educational setting, he is able to advise students of these needs.

He is also in the process of setting up an advisory board for technology programs at the College of Technology. With the resulting industry/education input, the college will be the "leading edge" telecommunications educator for credit programs as well as non-credit seminars offered to industrial clients. The college is the only State University unit offering a Bachelor of Science degree in telecommunications.

Walsh is responsible for developing the Institute's relationships with industry and informing the public of available services. The college offers industrial consulting by its professors, facilities for beta (field) testing of equipment and the development of specially-tailored seminars.

As a faculty member, he is currently teaching an introductory course in business communications.

Walsh replaces Richard C. Bower, the first NYNEX executive who was assigned to the college. He has returned to his position as a general manager, Network Services Division.

Walsh has been employed by NYNEX Business Information Systems since 1974. After receiving a bachelor's degree in history and government from St. Bonaventure University, he served two years in Nepal with the Peace Corps.

He resides at 517 Robinneau Road, Syracuse, with his wife DeDe, and three children, Jed, 9, Ben, 6, and Maureen, 2 1/2.
An Alumni Success and Succession Story at SUNY

When an alumnus of the College of Technology leaves a position of responsibility in the community, who better to take his place than another alumnus?

Within the past few months, one College of Technology graduate has moved from the position of administrator of Broadacres Skilled Nursing Facility to an appointment as Oneida County Social Services Commissioner. His successor at the county-operated nursing home is also a College of Technology alumnus.

In September, Richard DuRose (Class of ’76) was appointed to head the county’s largest department, supervising approximately 420 employees. He had been at Broadacres since 1980.

Brian J. Jordan was named to succeed DuRose at the 170-bed facility on December 30. He is a 1979 graduate of the college’s health services management program.

DuRose was not an official applicant for the Commissioner’s position, but was chosen over the 69 applicants by Oneida County Executive John Plumley. DuRose had indicated an interest in the position, but was dissuaded by Plumley because his services were needed at Broadacres. The search committee could not agree on a candidate, and Plumley was uncomfortable with the choices. DuRose was then asked to reconsider.

Plumley said it was DuRose’s broad background in the health and social services fields, particularly Medicaid, that convinced him that DuRose was best for the job.

“I have to feel that the man down there is doing everything he can to control costs while at the same time providing benefits to the needy,” Plumley said.

Before serving at Broadacres,

DuRose was administrator of Mid York Family Health Center in Hamilton and assistant administrator at Rome Hospital.

He served 20 years in the U.S. Air Force, retiring in 1971. A summa cum laude graduate of the College of Technology, he also earned an M.S. in human resources management and accounting from SUNY Binghamton.

Jordan was the unanimous choice of a six-person search panel to replace DuRose at Broadacres. Plumley termed Jordan “exceptionally well qualified.” A licensed nursing home administrator, he had been administrator of Stonehedge Nursing Home, a 160-bed facility in Rome, since 1981. He also holds a master’s degree from SUNY Binghamton and an associate’s degree in nursing from Mohawk Valley Community College. From the College of Technology, he graduated cum laude.

Scholarship to Honor Donovan Established

As part of the campaign to establish a scholarship honoring Senator James H. Donovan, a dinner was held on February 8 at Harr’s Hill Inn.

Proceeds from the dinner were added to the scholarship endowment fund established to recognize the commitments and accomplishments of Senator Donovan, according to Donald Mitchell, chairman of the Scholarship Fund Steering Committee.

When the initial goal of $40,000 is met, the income from the fund will provide $1,000 stipends to juniors and seniors at the College of Technology.

Four scholarships will be available each year to outstanding students from Oneida, Herkimer and Lewis Counties. The scholarship fund will be administered by the College of Technology Foundation.

All contributions to the fund are tax-deductible.

The drive to honor Senator Donovan began in October. Donovan is serving his 20th year as the New York State Senator from District 47. He chairs the Senate Education Committee. During his tenure he has been dedicated to the three county area and its youth as evidenced by his leadership role in the effort to establish the College of Technology and its Marcy campus.

One of the duties of an alumni association member is to spread the word of their alma mater. Reina “Penny” Judd (Class of ’78 and ’81) did just that — all the way to Africa!

She traveled to Kenya this fall on a professional tour to observe the African public health delivery system. By the way, even with two bachelor’s degrees from the College of Technology, an R.N. from Crouse Irving Memorial School of Nursing, and an MPA from the Maxwell School of Citizenship and Public Affairs at Syracuse University, “Penny” is still studying. In addition to running her company, Judd Rehabilitation Services, she is still seen on the campus for her spring class.

Transcripts Available for Alumni

As College of Technology alumni move along their career paths, they may require official transcripts sent to prospective employers. The Registrar’s Office reminds all alumni of the correct steps for avoiding delay in transcript delivery.

Requests should be sent to:

Registrar’s Office, SUNY College of Technology, Marcy Campus, P.O. Box 3050, Utica, New York 13504-3050. A fee of $3.00 for each transcript should be included with the request.

If payment is not enclosed, billing at $4.00 each, is made and the request held until payment is received.
Everything Under the Rainbow at Homecoming 1986

Another year has come and gone, another class has joined the ranks of alumni, another Alumni Weekend is just over the horizon.

This year's Weekend, scheduled to begin May 2, features many of the traditional reunion events, as well as a few new ones. The planning committee has already settled on the general components of the weekend's festivities.

Friday night marks the start of Wildcat Weekend 1986. Returning alumni will have the chance to meet with faculty and staff at a mixer in the cafeteria of the new ALC building.

Saturday begins with the annual golf tournament at Valley View County Club. Also scheduled that morning is an alumni brunch and business meeting in the ALC building.

The afternoon features two athletic contests. The first is the traditional alumni/undergraduate soccer game. A flag football game between alumni and undergraduates has also been arranged.

Reunions for the classes of '76 and '81 will be held Saturday afternoon. The evening ends with the annual reception, banquet and awards ceremony at the Sheraton Inn and Conference Center.

According to Milt Smith, director of alumni affairs, the weekend gives alumni the opportunity to return, reacquaint and remind themselves of the people they met and times they spent as students.

"The weekend promises to be an exciting time," said Smith. "It will be the first time we'll hold these events on the new campus. Our alumni will see for themselves how far we've come as they share in the past that made all this possible."

Twelve SUNY Faculty and Staff Receive Promotions

Congratulations are in order for a number of college employees who have received promotions in recent months.

Dr. Theodore Hanley has been selected as the Dean of Arts and Sciences at the College of Technology. He was previously the acting dean for the division.

David Keymer

Six faculty members from arts and sciences received promotions to associate professor. They are Charles Bering, Brijmohan Mullick, Marjorie Lavin, Paul Schulman, Patrick Kelly, and David Hakken.

Brijmohan Mullick

Louise Dean-Kelly

Other promotions and appointments include: Barbara B. McBride, permanent appointment as assistant director of admissions, and Louise Dean-Kelly, associate professor, nursing.

Senior Pam Casscles Selected as Recipient of Kunsela Endowment by the Class of 1982

A senior finance major at the College of Technology has been selected to receive the college's Class of 1982 Scholarship.

Pam Casscles is the recipient of the award made possible through a gift to the Kunsela Endowment by the Class of 1982. Administered by the College of Technology Foundation at Utica/Rome, the income from the gift provides an annual scholarship recognizing involvement in student government.

Casscles is chairperson of the College of Technology Student Publications Board, editor of the yearbook and a staff member of the bi-weekly newsletter. She is also a member of the Student Activities Board (SAB) and the Alcohol Policy Committee. She served on the committee which planned the dedication of the college's Marcy campus.

The secretary of the College of Technology chapter of Phi Beta Lambda, Casscles was also a member of the business fraternity at Schenectady Community College. She majored in business administration there before transferring to the College of Technology.

In 1981, she graduated from Linton High School in Schenectady. During high school she was active in student government, serving as treasurer in her senior year. She was also a member of the International Club, the AFS, the Key Club, Office Aides and served as the manager of the track and cross-country teams.

Casscles is the daughter of Louise Casscles, Lenox Road, Schenectady, and the late Charles W. Casscles.
The men's team has put another winning season behind them. Finishing the year with a record of 16-8, the Wildcats again earned a bid to the ECAC Upstate New York Division III Basketball Tournament.

The Wildcats headed home for the holidays with a promising Christmas gift: a 4-3 record. While it may not be as pretty as it could be, the coaches and players know that the record boded well for them when they returned in January for the major part of their season.

Three points, a gimpy knee, and a couple of tough referees were all that kept the Wildcats from roaring out to a 6-1 start. With Robert Graham missing most of the pre-season rehabilitating a knee injured in an early scrimmage, the men didn't look good approaching the five away games at the season's start.

In the season opener (Nov. 22) the Wildcats fell one point short of defeating last year's ECAC-Upstate Champion Fredonia State in the first round of the Pepsi-Plattsburgh State Tip-Off Classic. The team rebounded to capture third place by beating Hobart College 76-70 in the consolation round.

With a 1-1 record, the Wildcats went on to their next opponent, Hamilton College (Nov. 25). The men fell behind fast in the first half, then fought back to within two points early in the second half before foul trouble and a taller, stronger Continental team resulted in an 84-72 loss.

It was then on to Buffalo (Dec. 6) and a 79-56 victory over Daemen College as 9 out of 10 Wildcats hit the scoring column. With the team now 2-2, Graham was still a shadow of his former self (25.8 ppg and 55% fg shooting last year). Missing a lot of shots he would've normally made when healthy (34-94, 37%), Graham tried to play himself back into shape.

The next game, against Roberts Wesleyan (Dec. 7), marked the arrival of Graham 1985, although his return to form was marred by two foul-calling referees. Graham had an amazing night; 16 for 24 (67%) from the field and 3 for 3 from the foul line for 35 points. The astonishing fact was that Graham accomplished all this in less than half the game as the refs talked him with their whistles. After scoring 7 of 9 in the second half, Graham fouled out with three minutes left to play and the Wildcats went on to lose 73-71.

With a 2-3 record on the road and tough St. John Fisher (Dec. 11) up next, the men's team was happy to be home in Beeckman Gym. Led by the resurgent Graham (40 points, 10 rebounds, 3 steals), Utica native David Pasik (18 points, 9 rebounds), and Jasper Harvey (10 points, 13 rebounds), the Wildcats outgunned the Cardinals 89-75. Graham was named to the ECAC Division III North Honor Roll for his efforts that week.

A 70-62 win followed over outmanned Oneonta State (Dec. 13), as Graham scored 31 points. The first half of the season ended with a postponement of the Oswego State game because of weather conditions.

Returning from the winter break, the men took on Brockport State (Jan. 9) in the first of a three-game home stand. The long layoff showed its effects as the Wildcats lost a 13 point lead before going on to win 105-101 in double overtime. Graham had 44 points in that game, one point shy of his all time high. Graham was named ECAC Division III North Co-Player of the Week.

The Potsdam State game (Jan. 13) set an all-time attendance record for the Wildcats as they fought a tough first half against the nationally-ranked team. Graham scored 22 points as the Wildcats went on to lose 82-63.

Their final home game before a five-game away trip pitted the men against the Lakers of Oswego (Jan. 17). With a 72-63 win, the Wildcats pushed their record to 6-4. Graham (27 points) and Everett Gamory (16 points, 14 rebounds) led the Wildcat attack.

Wildcat leading scorer Robert Graham puts up a shot in a 89-75 victory over St. John Fisher (Dec. 11).

The first two away games were tough losses to St. John Fisher, 104-87 on Jan. 21, and Fredonia, 88-75 on the following day.

With a 6-6 record, the men travelled to the Big Apple to play Medgar Evers (Jan. 24). Pasik with 16 points and Al Morrison with 14 helped pace the Wildcats to a 72-66 win. Another win followed as the men defeated St. Rose five days later, 82-58. With 29 points, Graham broke the 1,000 point career record at the College, set by Joe Wrobles in 1982-84. Morrison added another 18 points to the win.

The final road game of the trip was against D'Youville (Jan. 31). For the first time this season, all nine players were in the scoring column as the Wildcats won 98-59.

With a 9-6 record, the men returned home to face Roberts Wesleyan (Feb. 1) and exact some revenge for an earlier loss. Led by Graham's 36 points and Gamory's 11 rebounds, the Wildcats defeated the Raiders, 85-69 and extended their winning streak to four.

The Wildcats pushed their record to 11-6 with a win over Oneonta State (Feb. 4). Graham with 27 points and Gamory with 19, led the team back from a three-point first half deficit to win, 77-60.

Two days later, the men's win streak came to an end as they lost to Nazareth, 80-74. Pasik led the team in scoring with 19 points. Nazareth, 16-2, was ranked then as fourth among the state's Division II teams.

The Hamilton College Continental Classic (Feb. 8-9) was the next stop for the men. They defeated St. John Fisher in the opening round, 84-69. Graham led the team with 29 points, followed by Morrison with 14, and Pasik and Bing each with 12. In the championship game, the Wildcats lost to the hosting Continentals, 92-67. Pasik and Morrison each had 12 points, with Bing and Graham both contributing 11. Graham was named to the all-tourney team for his efforts.

Rebounding from his poor shooting performance in their last game, Graham scored 41 points as the Wildcats defeated Green Mountain two days later, 94-78. The home win boosted the men's record to 13-8.

continued on page 7
Lady Wildcats: Trying Times and Tough Teams

The Lady Wildcats basketball team started off slowly, won three in a row, and then suffered two disappointing losses to finish the first part of their season at 4-6. They returned to action on January 10 with a string of ten games in just 22 days.

The team featured a balanced scoring attack and strong rebounding skills, with 4 of 5 starters averaging in double figures. However, constantly facing taller, stronger and deeper squads has taken its toll on the women's team. The opening game (Nov. 16) has proven to be typical of this season. Trailing by only six points late in the game, the Lady Wildcats did all they could as a taller Keuka team pulled away for an 89-69 victory. Bean Olmstead continued where she left off last season, scoring 27 points. Former Utica Notre Dame standout Tracy Miga added 17 points and 9 rebounds.

The women evened their record at 1-1 with a win over local rival Mohawk Valley Community College (Nov. 19). Miga's strong inside game (14 points, 17 rebounds) and Olmstead's 23 points helped pace the team in its first away game of the season. Unfortunately, three losses at home quickly followed. The first was to North Country, 61-53, on November 22. The next day brought a heartbreaking loss to Oswego, 65-63. Then-undefeated Hamilton extended their win streak over the Lady Wildcats, 74-47 on December 3.

A forfeit by D'Youville (Feb. 14) preceded the Wildcats last home game of the season. A balanced scoring attack gave the men an 82-59 victory over Daemen College.

The Wildcats closed out their regular season with a victory over St. Mary's of Maryland. Graham's 37 points and Gamory's and Bing's 10 rebounds apiece brought the team's record to 16-8.

That winning record seeded them fifth in the ECAC Upstate New York Division III Tournament. In the first round the men faced fourth seeded Albany State (March 1). Graham's 17 points and Harvey's 14 were not enough to lead the Wildcats to a victory and the second round of competition. Numerous turnovers on the men's part, coupled with deadly shooting accuracy on Albany's part, resulted in a 98-58 victory for Albany State.

The Wildcats are continuing a winning legacy. This year's 16 wins is just one shy of last year's 17-8 record. At the beginning of the season, Coach Jim Klein realized it wouldn't be easy to match last year's record. "If we get 14 or 15 wins this season, we can be proud of that," he stated. "I would be ecstatic if we won 17 games this year."

In his fourth year of coaching the Wildcats, he can be proud of what he and the team have done together. Already they're looking forward to next year and the chance to continue a winning tradition.

Mindy Hayes scored 13 points and Tracy Miga added 10 points and 13 rebounds to that game. Three days later the Lady Wildcats would lose 67-48 to Albany College of Pharmacy for the second time this season.

A 60-55 loss on the road to Russell Sage (Jan. 20) would precede a dismal finish in the Union College tournament (Jan. 24/25). The Lady Wildcats again lost to Russell Sage, and also succumbed to Green Mountain in the consolation round. Four days later the Lady Wildcats lost on the road to St. Rose, 78-57. Page led the women with 14 points as the team's record fell to 4-13.

The end of January also marked the end of the women's losing streak as they defeated D'Youville, 60-50. The next day saw Olmstead, Hayes and Page combine for 28 second-half points and their second straight victory. Their opponents, Roberts Wesleyan, gave up a five point lead with five minutes left in the game, and went on to lose, 59-53.

The Lady Wildcats tried to extend their two-game winning streak in the Hamilton College Tournament (Feb. 8/9). Their efforts would fall short as they first lost to Hamilton, 73-55 and then to William Smith, 94-65.

At 4-16, the women returned for a three-game home stand. First up was D'Youville (Feb. 14). The Lady Wildcats ended their losing streak with a 17-point win, 64-47. The following day they defeated Daemen College by another 17-point margin, 77-60. The team finished its home season on Feb. 18 with a victory over local rival Mohawk Valley Community College, 69-62.

Unfortunately, the team would not end its season on a winning note. The Lady Wildcats lost to Keuka College on Feb. 22 by nearly double their score, 102-53.

Bean Olmstead led the team in scoring, averaging 15.8 points per game. Fellow senior Mindy Hayes came on strong this year, averaging 15.3 points per game. Yvonne Page, a junior, was also a scoring leader, with 14.1 points per game.

The Lady Wildcats are already preparing for next year. Their dreams of a winning season are alive in the future. Their perseverance and their abilities will make that dream a reality.
Student Survival Kits: CARE Packages for Final Exams

Final examination time is a personal thing. It's usually a one-on-one contest. Student vs. test, no holds barred, no best two out of three. Even the last few weeks of training and preparation for this event are an individual matter.

Until now.

This year marks the dawn of a new era at SUNY College of Technology. It is the birth of an idea that stems from a family's desire to help the student at this testing time.

It is the creation of the Student Survival Kit.

The kit is a personal CARE package delivered by the College on behalf of the parents to their student sons and daughters. Each kit contains the necessary ingredients to help students in their preparation for finals. Items such as pens, pencils, erasers, snacks, instant soups, cookies, candy bars, fruit, hot cocoa and soda are currently scheduled to be included in these kits.

According to Gary Kaminiski, president of the College's Student Alumni Council, there will actually be two survival kits. "The first kit will contain approximately five items and sell for around $5," said Kaminiski. "The second kit will contain about ten items and sell for $8."

In the middle of March a brochure was sent to the parents describing the survival kits. The brochure has an order form for the parents to fill out and return by late April. The brochure also has a returnable section designed for the parents to write their own personal notes of encouragement to their sons or daughters. Just before final examinations, the kits will be delivered to the students with the personal notes from their parents enclosed.

Kaminski said this is the first time this has been tried at the College. The program is sponsored by the Student Alumni Council. Some past projects of the council include a coupon booklet for discounts at area restaurants and businesses, a campus phone board and directory, and two off-campus mixers to allow students to meet their fellow classmates in a social setting.

The council has high expectations that the survival kits will become an established program at the College. Any questions concerning the kits or the Student Alumni Council can be directed to the Student Affairs Office at 792-7130.

---

SUNY Offers Tour of Scotland and England

Experienced travellers as well as armchair novices can enjoy the upcoming study tour of Scotland and England sponsored by the College of Technology.

Offered for the third year by the college, the tour runs from June 30 to July 22, and includes stays in Edinburgh, Scotland, and London, England. Lectures, a concert by the Royal Philharmonic Orchestra, a performance by the royal Shakespeare Company, tours of art galleries, and historical sites are scheduled, and adequate opportunity for individual activity is allowed.

In conjunction with the trip, up to four hours of undergraduate or three hours of graduate credit may be earned in history, literature, or humanities. However, the coursework is optional and the tour is open to the general public.

Tour leaders will be Sara Peters and Walter Johnston. Peters has lived in Britain and studied at Oxford, University College London, and the British Museum. She is an expert on medieval British literature, medieval art, and architectural history. Johnston is an authority in modern British literature and an experienced reviewer of theater and the arts.

The tour package includes airfare on regularly scheduled flights, ground transportation, housing, morning and evening meals and entry fees or tickets to group events.

The College of Technology presents the tour in cooperation with the Departments of Extra-Mural Studies at the University of Edinburgh and the University of London.

For specific information, call the college's Division of Arts and Sciences, 792-7334.

Alumni Scholarships

continued from page 1

degree in marketing, retailing and business administration from Albany Business College in May. She was a President's List student there, maintaining a 4.0 average. At Albany, she was a member of DECA (Distributive Education Clubs of America), a reporter on the school paper and also worked as a student aide.

A 1980 graduate of Avestill Park High School, Saxby was a member of the National Honor Society, the German Club and the basketball team. She also attended the Elim Bible Institute in Lima for two years.

The daughter of Thomas and Marie Saxby of East Nassau, she is a member of the Full Gospel Tabernacle Church of Rensselaer, active with the church youth group, nursery, children's church and the committee to formulate church construction plans.

Schmidt is majoring in business/public management. He graduated in June 1985 from the Utica School of Commerce where he was active in the Service Club.

As an operations specialist in the Navy, he served in Australia, Korea, Singapore and Hawaii. During his five year tour, he received the Secretary of the Navy Achievement Medal and several Commanding Officers' Commendations.

The son of Barbara and Ralph G. Schmidt, Sr., of 122 Glen Road South, Rome, he graduated from Rome Free Academy in 1977. After completing his undergraduate studies, Schmidt plans to earn a master's degree in business and hopes to operate his own business.

Enrolled in business/public management, Stivers is a member of the Wildcats basketball team.

A Dean's List student, he graduated with honors from Fulton-Montgomery Community College, receiving an associate degree in business administration. He was captain of the varsity basketball team there.

Stivers also captained the basketball team at Frankfort High School, Frankfort, Kentucky, from which he graduated in 1982. He was also an honor student and member of the Pep and Key Clubs. He is the son of Raymond and Marsha LeRoux, 292 Gay Park Avenue, Amsterdam.
Class Notes

Class of 1975

Jerome Donovan was hired in November 1985 as Director of the Presentation Health System Foundation. The System consists of ten hospitals and two nursing homes located in the four-state region of South Dakota, North Dakota, Montana and Minnesota. Jerry resides at 5504 52nd Street West, Sioux Falls, SD 57105.

Mary Ann Hynes writes, "Besides working for Oneida County, I also own M & B Security Company in Utica. I enjoy doing both jobs." Mary Ann is a Caseworker for Oneida County Department of Social Services. She resides at 1502 Taylor Ave, Utica, NY 13501.

1976

Dennis Conard was appointed Regional Manager for Pass Seymours Electronics Division, Syracuse Electronics for which he is responsible for the sales force of sixteen midwestern states. Dennis resides at 101 Sandra Drive, North Syracuse, NY 13212.

Christopher Dee has recently started an accounting position with the Town of Huntington Highway Department and resides at 443 Second Ave, East Northport, NY 11731.

James Jijita is serving as an ammunition specialist with the 1st Aviation Battalion at Fort Riley, Kansas. He recently participated in a NATO-sponsored exercise, involved with the Army's return of forces to Germany and the Air Force's Crested Cap exercises.

Kevin Truesdale was recently in Utica and he stopped by the Alumni Affairs Office. He writes, "I was delighted to receive my alumni newsletter informing me of all the happenings! The new campus looks great. I really enjoyed reading about my fellow alumni and keeping track of old friends. Keep up the good work!" Kevin is Director of Operations for Freshens Yogurt, Inc., and he resides at 3412 Spinnaker Way, Acworth, GA 30101.

1980

Michael Barody and his wife, Ann, are residing at 1888 Bugle Lane, Clearwater, FL 33756. Ann is an Office Manager for a local physician. Mike is the Administrator of Seminole Nursing Pavilion, a 700-bed life care center. He has also been elected regional vice president with the Florida Health Care Association, representing 127 nursing homes with 13,802 patients, in matters pertaining to legislation and regulations at state-level hearings and meetings. Mike sends his regards to Monte Welker and Jack Appleseeds.

1981

Karen (Fitzgerald) Evans resides at Rte 7, Box 159, Rome, NY 13440. She was married to Wade Evans on August 31, 1985, and is a Business Teacher at Rome Catholic High School and is an Adjunct Instructor in the Office Technology Department at MVCC.

James Farrar has been employed as Supervisor of Plant Operations with GTE Sprint Communications Corporation in Omaha, NE since August 1982. He writes that he is glad to hear of the establishment of the Telecommunications Institute at the college. "Speaking for the industry, we truly need educated professionals in this ever-expanding field," he said. Jim's business address is GTE Sprint Communications Corporation, 11031 "T" Street, Omaha, NE 68137.

Jeffrey Gilbert, was recently promoted to Assistant Program Director of the Day Treatment Program at Oneida County Association for Retarded Citizens. Jeff lives at 102 Vine Street, Rome, NY 13440.

1982

R. Delaine Baker is a Financial Counselor for SUNY Cortland and resides at RD #2 Box 18, West Lake Moraine Road, Hamilton, NY 13346.

D. Roberta Halih was promoted in September 1985, from an Associate Professor to a Professor in the Cosmetology Department at the Capital District Educational Opportunity Center, administered by Hudson Valley Community College and SUNY at Albany. Roberta received the 1984-85 faculty recipient merit award for teaching excellence. She is presently enrolled in the graduate study program at Russell Sage College in Albany. Roberta resides at 67 Rappel Drive, Colonie, NY.

John Hoy is a Claims Adjuster for Merchants Insurance. He resides at 105 Stonehedge, Camillus, NY 13031.

Jim Jessup has been living and working in Virginia for about three years. In that time he has gotten married and has a little boy (Andrew John). He is a Software Analyst for E-Systems Melpar Division and resides at 8316 Feisted Lane, Manassas, VA 22110.

Alice Ridgway writes, "I'm a VE Instructor at the American High School in Augsburg, West Germany. I travel frequently to other countries and love it, benefits of the job are good and vacation time is perfect for traveling." Her address is Ottostrasse 4 8901 Stadtbergen, West Germany.

Craig Strizzi is a Security Officer/Firefighter for General Electric Company in Niskayuna, NY. He resides at 122 Forts Ferry Road, Latham, NY 12110.

1983

Richard Banas is a Parts Manager for D & W Diesel and Electric. He writes, "Welcome back to New York Trixie Dragoo, '82." Richard lives at RD #5 Box 342, Auburn, NY 13021.
Marsha Jones Howard is a Biological Technician for St. Lawrence University. She writes, "I'd just like to say hello to all the graduates from the biology and chemistry technology program and congratulations everybody on the great jobs I hear they all have. Good work folks! Let's try to keep in touch, and maybe have a good showing at this spring's Alumni Weekend." Marsha lives at 10 Clark Street, Philadelphia, NY 13673.

Laurie Maroney Normand's mailing address is Box 4524, APO, NY 09755-5375. She writes, "After working stateside for 18 months, I'm relocated with my husband to the U.K. Brian is in the Air Force, stationed at RAF Bentwaters and I'm enjoying my work on a compiler design team. I would like to hear from my former classmates." Laurie is a Developmental Programmer for Metier Management Systems.

Steve Smith resides at 110 Westchester Ave, Buchanan, NY 10511. He writes, "Having worked in the South Bronx, one becomes well seasoned in law enforcement." Steve is a Patrolman for the New York State Park Police, New York City Region.

The following is a list of contributors to the November 1985 Phonathon as of March 20, 1986.

Gov. Mario Cuomo lays the ALC Building cornerstone during campus dedication ceremonies. Looking on (I. to r.) are Dr. Clifton Wharton, chancellor of the State University, Assemblyman William Sears, R-115, Assemblyman Richard Ruggiero, D-116, and Senator James Donovan, R-C-47.

Governor Mario Cuomo arrives at the Marcy campus by helicopter for dedication ceremonies.

Winter weather didn’t deter Structural Associates from laying steel for the Health Physical Education and Recreation (HPER) Building.

Enjoying the dedication of the Gannett Gallery are (I. to r.) Dr. Peter Cayan, president of SUNY College of Technology, Sal DeVivo, publisher of the Utica newspapers, and Dr. Michael Schaefer, president of Mohawk Valley Community College.

Dr. Cayan gives Sal DeVivo, publisher of the Utica newspapers, a memento honoring the Gannett Foundation’s gift that made the gallery a possibility.
Lost Alumni

We have no current addresses for these alumni. If you know their present location, please forward their address to the Alumni Affairs Office, Marcy Campus, P.O. Box 3050, Utica, N.Y. 13504-3050.

The next issue of the Alumni Newsletter will run the names of other missing alumni. This is not a complete list of our missing graduates.

College of Technology

During the May 17 commencement ceremonies, students from the College of Technology's graduate programs were presented with degrees. A special address was delivered by the visiting class of 1996 president, Dr. Albert B. Martin, associate professor of music. Two keynote speakers were Dr. Robert Long, chair of the Department of Music, and Mr. James H. Phelan,ewan, a member of the College's Board of Trustees.

The son of William and Anna Campbell, 118 Eagleson Street, was Hosea Dean-Kelly, associate professor of music. He graduated from the College of Technology with a major in music education and is currently a member of the College's Board of Trustees.

Dr. Martin, a well-known composer and educator, delivered the keynote address. He has been a member of the College's faculty for 15 years and has taught courses in music theory, composition, and music history.

Dr. Phelan, a former member of the College's faculty, has been a member of the Board of Trustees for the past five years. He is currently the president of the Board of Trustees.

The College of Technology's Board of Trustees has approved the appointment of Dr. Martin as the new president of the College. The position will be effective July 1, 1996.

The College of Technology is a member of the American Association of University Women and is a member of the National Association of Women's Colleges.

The College of Technology is located in the heart of the Washington, D.C., metropolitan area and is committed to providing high-quality education for students from all walks of life.
