Letters to the Editor

Errata

The SUNY Office of Library and Information Services and its affiliates are part of the Provost's Office at SUNY System Administration. Provost Peter D. Salins is the number two academic officer of the State University of New York.

SUNY OLIS would like to thank Provost Salins for the support that he has shown the office. The Provost has been an early advocate of the SUNY*Connect* initiative. This support has opened doors to some of the additional constituencies needed to develop SUNY-wide electronic library services.

Provost Salins sees the value of highlighting and making accessible all of the library resources across all of the SUNY institutions. Yes, it should be easier to know of and borrow that particularly useful book owned by a sister college in the SUNY system. Implicit in this understanding is the value of taking advantage of SUNY libraries' unique qualities and their professionally trained staff while sharing commonly required resources.

Please let the Provost know that you appreciate his support for SUNY-wide library services. Share with him your vision of how to best take advantage of the treasures of SUNY's libraries.
