SUNY OLIS and Ex Libris have begun working with the second group of SUNY libraries to implement the SUNYConnect LMS. The Group2 campuses are Broome Community College, Cayuga Community College, SUNY Cortland, Herkimer County Community College, Morrisville College of Agriculture & Technology, Onondaga Community College and Upstate Medical Center.

These libraries are working with Michael Blake and Marc Keeper who are their main Ex Libris contacts. Initial meetings designed to get the ALEPH500 implementation process underway were held in November. Group2 has been busy creating Multilis-to-ALEPH "translation tables" for information such as collection codes, patron categories, and item statuses.

Based on the implementation schedules, SUNY OLIS has delivered data extracts for all but two of the campuses (Herkimer and Upstate). And Ex Libris has created a test database for the first Group2 campuses (Onondaga and Cortland).

SUNY Group2 representatives from left to right: *Dave Ritchie, Cortland; Pam White, Upstate; Judy Campanella, Cayuga; Pat Onsi, Upstate; Martha Lollis, Cayuga; Marc Wildman, Cortland; Bill Drew, Morrisville; Alice McNeely, Broome; John Spencer, Onondaga; Jeff Harr, Onondaga; Scott DiMarco, Herkimer; Angela Weiler, Morrisville; Valerie Prescott, Herkimer; Larry Jenkins, Broome*

A busy ALEPH training schedule is ongoing. These sessions are being held at the SUNY Training Center in Syracuse.

The scheduled "STP" dates for these libraries are in the May-June 2002 timeframe.
