Evidence of SUNY*ergy*

We're seeing lots of evidence of SUNY*ergy*. And it certainly is not restricted to the library. One such example was the process that led to the addition of the Gale Literature Resource Center Archive to SUNY*Connect*-wide electronic resources earlier this year.

This is a multi-year agreement that resulted in significant cost savings for SUNY. SUNY's Literature Resource Center Archive includes material from Associations Unlimited, Biography and Genealogy Master Index, Contemporary Authors, The Times Digital Archive and many other sources.

The OLIS, the SUNY Finance Department, Nylink and Gale worked together to make these resources available for all SUNY*Connect* institutions. "The Digital Archive Program will provide great benefit to SUNY and your support and partnership are sincerely appreciated" (SUNY's Sharon Gallagher).

Here's more evidence of SUNY*ergy*:
"Automatically Printing Notices and Reports in Aleph" - by Marianne Foley (Buffalo State College). This is a really helpful document done by BSC and answers many questions on the mysteries of printing in Aleph. The handout from Marianne's poster session at the recent SUNYLA conference is available on SUNY Oswego's ALEPH/Ex Libris Resources web site (via http://www.sunyConnect.suny.edu/aleph/)

Thank you Marianne for sharing this!

Natalie Sturr (Oswego/OLIS)

"So far, our library staff who started to work with the ALEPH circulation module LOVES it!"

Elizabeth Leschinsky (Maritime)

"As of Thursday, June 03, 2004 we have officially switched to production (STP) using our new online library catalog StyleCat housed on ExLibris' ALEPH software. At 10:07 I had the honor of checking out the first book with Lorraine Weberg at my side. At 10:20 the web links to FIT's online catalog were pointed to the Aleph server - the first bibliographic instruction class using the new system will be given tomorrow. By tomorrow we will have eight kiosks throughout the library dedicated to searching StyleCat. Cataloging and Periodicals will be coming up in the next week or two. Acquisitions will end the transition suite sometime during the summer.

"Thanks go to every one on library faculty and staff for your assistance and patience during this process, many of you have worked long hard hours to get us here - our gratitude goes particularly to Lorraine [Weberg] who really made the STP a success. Also, special thanks go to Janette Rozene for her tireless data checking during the migration process and her energetic training of the cataloging and periodicals staff and faculty. [Library Director] NJ Wolfe has given us full support throughout this seven month process. Of course, we here at FIT have done this as part of a dedicated team comprised of members from the Ex Libris and the OLIS staff all of whom have been wonderfully responsive during this process.

"We have elected to begin with only modest recognition of our STP day - we hope to have some real fanfare at the start of the fall semester.

"Thanks again and congratulations to one and all!"
Greta Earnest (FIT)

Hi Carol [Jensen] and WCC [Westchester],

"Congratulations to you and all your staff. Thanks for the kind words about Group 7 -- the team support has definitely made the migration easier and more fun."

Kadri [Niider] OPT [Optometry]
