I will be on a special work assignment away from the office from April through September 2005. The work assignment deals with [institutional repositories](#) and the SUNY system. Namely, what are the strategies for success utilized by other institutions that would fit well with a SUNY-wide repository? The focus will be on ways of increasing faculty participation in self/institutional archiving of their work, as well as on other policy-related issues to such successful digital archives.

After LAIP and the migration of Multilis sites to ALEPH, the timing seemed good to focus on an entirely different aspect of *SUNYergy*. Upon my return to the office in October, I'll continue to work on a SUNY-wide repository and other aspects of *SUNYConnect* under the rubric of "electronic resources."

About OLIS Publications

- *SUNYergy* Vol. 7 No. 3 (July 2005) will not be published.
- Issue 267 of *The LAIP News* (formerly the SLSCK Newsletter) was the last.
- The *SUNYConnection* newsletter will be distributed electronically during April through September 2005 on a monthly basis.
- Also, see [S.A.C. meeting minutes](#) and periodic email announcements from OLIS for additional news and information about *SUNYConnect*.
