

**SUNYAUG** **SUNYAUG 2006**

**Cover Story**

Colleagues from around the state got together on Columbus Day. It was the fourth annual SUNY ALEPH Users' Group meeting. Thanks to our host [Fulton-Montgomery Community College](#) and conference planners and presenters for a successful and productive day. 30+ *SUNYConnect* campuses were represented among the more than 80 attendees. Program chair, Marianne Hebert (Potsdam) gets special note for serving in this capacity two years running.

The [conference program](#) shows the growth of the organization. Along with sessions on many parts of the *SUNYConnect* LMS, the agenda also included broader *SUNYConnect*-related topics. This included presentations on using SFX for collection development decisions and on the process of choosing and implementing electronic resource management systems.

[Syndetic Solutions](#)

SUNYAUG is a great example of the type of collaboration and community-building that sets *SUNYConnect* apart from other SUNY-wide initiatives. This is the standard that SUNY librarians set that should be modeled across many other parts of SUNY. *SUNYConnect* libraries do it together!

[Task Forces](#)

[SUNYConnect Updates](#)

Some highlights from the conference included:

[How to Contact Us](#)

- discussion groups on specific modules/systems;
- brain-storming on next steps related to ALEPH reports;
- selection of a transition group working on the SUNYAUG entity becoming a committee of SUNYLA
