Student Life
Dear Graduates:

A college yearbook is a means of remembering and reliving your college days. This collection of pictures and text will serve you well to transform the present to the future.

Your education here at the Institute of Technology has been a mutual achievement of yours and the college, for it is in you that a significant investment has been made. The success of our College is measured by the accomplishments of our alumni. It is you, our graduates, who will become the true litmus test of your educational and social experience at this institution. The bequest of the class of '94 is its accumulation of friendships and contributions to the Institute of Technology's history.

I suggest to you that Genesis be supplemented by occasional visits to the campus as you recapture the past. You will find that a continued relationship with classmates, faculty, and staff can be well expressed in an active alumni.

On behalf of the entire college family, I wish you every success in your future. With pride we look forward to following your progress, so please stay in touch.

Please remember us as we will remember you.

Sincerely,

Peter J. Croy
President
Dear Friends:

This has been a great year for all of us here at the SUNY Institute of Technology. We have gained a great deal of knowledge through the classroom and our experiences. The untold hours of homework and stress will one day pay off.

We all started with a dream, a college education. That common goal has brought us together to share this moment in time together. This piece of time will stay with us forever. I will never forget my experiences here at SUNY.

One of the nicest things about our school is that it is small and closely knit. I feel that we are all part of a big family, and everyone knows one another.

I am going to miss everyone! I have really enjoyed serving you this past year as URSA President. I will never forget the times that we have shared together. Without the involvement of everyone this year couldn’t have been a success. Thank you all!

I wish everyone the best of luck in all future endeavors. I am confident that you will achieve happiness and success. Good luck, and congratulations classmates.

Sincerely,

Richard L. Maxon
URSA President
The purpose of the Utica/Rome Student Association is to promote the well-being of its membership through the funding of academic, cultural, recreational, social, tutorial, and athletic programs. The Association also recognizes and supports other student organizations and publications; however, it does not fund those with political or religious intent. The Association serves as a representative voice of the student body in all college affairs. All students attending class at SUNY Institute of Technology who have paid a student activity fee shall be members of URSA and shall be accorded the privileges, duties, and responsibilities pertaining thereto. This includes all full- and part-time students paying the activity fee. Participation in funded activities may be limited to those persons paying a student activity fee.

Stephanie Sunseri, Treasurer.

MEMORY OF MARY M. PLANOW

"Do not stand at my grave and weep,
I am not there, I do not sleep.
I am a thousand winds that blow;
I am the diamond glints on snow.
I am the sunlight on ripened grain;
I am the gentle autumn's rain.
When you awaken in the morning's hush,
I am the swift uplifting rush.
Of quiet birds in circled flight.
I am the soft star that shines at night.
Do not stand at my grave and cry.
I am not there; I did not die.”

— Author unknown

Lions and tigers and bears, oh my...

How's that pie, Chris?
Don't cry, this test won't interfere with your GPA.

Wow, I didn't know there were so many of them!

How's that corn on the cob, Jamie?

Don't try this at home.

The ball goes over the net NOT Karen!

Far right: Don't try this at home.

The man? The myth? The ... ?
Every year the Career Planning and Placement Center holds a Job Fair for Juniors, Graduating Seniors, and Alumni. This year it was held on Thursday, November 4, in the Campus Center Gymnasium. For a month ahead of time, students are preparing their resumes as well as their interpersonal skills for this day. Many local companies were represented as well as a few from as far as Miami, Florida. Students dress in their very best in hopes of making a full professional impression. Company representatives leave our campus with folders full of resumes, a few appointments for future interviews, and a good impression of our student body.
IDS SPEAKER

The SUNY Institute of Technology at Utica/Rome invited an HIV positive candidate to speak to the students, faculty and staff. On Tuesday, November 16, Henry Nichols and his sister came to our university. His topics included what AIDS and HIV is, how he acquired it and how it affects his life. Henry, a 20 year old hemophiliac, was infected at the age of 11 with one of the many blood transfusions that he needs to receive. He has decided to bring the message of AIDS to audiences across the country. Just because Henry has AIDS doesn't mean that he is waiting to die. He has many activities. There was a question and answer session during Henry's educated talk. You are a valuable person! VALUE YOURSELF!

Henry Nichols with his sister, niece and Cheryl Mager and Stacey Poddo of SNO.
Clockwise:
"Don't call me Doter!"
Rob and Beth having fun partying at Sunset and Avery.
Elaine shows how tough she really is.
Mary and Joe are pajama-jammin' it.
MOOO!
Pumping iron with Andy, Jay and Dewey.

Grrrr!

You can't hide behind the balloon, Mike.

John smiles pretty for the camera as he arrives for a party.

The guys in 'P' are running their own type of racing while Jim enjoys a quick snack.

Student Life
Out on a leisurely walk through the field.

Trust you? I can't even see you!

LEADERSHIP 2000

Every year, student leaders are asked to attend monthly leadership seminars. Here is where the training starts for not only their positions on campus but for real life. The topics included in these events are fundamentally concentrated around management, setting and attaining goals, developing interpersonal skills, interacting in a team setting, and so on. Activities and lecturers are used for an active and fun approach to learning.

What are you smiling at Edgar?
Kumbaya ...

Please pay a little attention.

Knot Mania.

Hi! My name is . . .

We all join hands and circle left.
The new student orientation program has been designed to answer some of the questions about an upper division institute and student life. New student orientation familiarizes students with the campus, its facilities and community. At orientation, students have the opportunity to meet with several representatives from many departments and offices on campus whom they will encounter. Orientation also has students register for the next semester's classes with advisement from department representatives. And during the evening, the college provides entertainment for the students and their families along with tours of the city of Utica to familiarize them with the community.
The 1993 Rocktoberfest Alumni Weekend was held on October 1 and 2, sponsored by URSA, CFB, SAB and the Alumni Association. The fun started Friday night with comedian Buzz Sutherland and the live music from the band Settie. On Saturday afternoon there was an alumni soccer game along with volleyball and other activities. A cookout/picnic was for all the students. Later that evening, a party at 12 North Sports Bar. At the party, students had fun playing Simon Sez with Bobby Gold and dancing to the music of vocalist Martin Sexton and the band Atlas.

Ahhh. A nice relaxing game of Alumni Soccer.

We wish we could do this every night. What? WE DO!
Goalahhh!

Sing to me baby!

Jim Coler, at his finest!

I salute you.
Hypnosis is a wonderful thing.

Above: Jude, what are you doing?
Top right: Cheeze . . .
Right: The after life.

Left: Look, up in the sky . . .
Bottom: You do the hokey-pokey and you turn yourself around . . .
Families gather from all around to see new entertainment.

Return to the Fabulous '50s and '60s was the theme of the 1993's Family Weekend on October 8, 9, and 10. The weekend started Friday night with a "Pep Rally" and an Elvis tribute by well-known favorite Joe Angerosa, who takes his version of the King of Rock 'n Roll throughout the country. Saturday night's "Sock Hop" held the promise of literally twisting the night away as the Honeybush Brothers provided the music and the jitterbug and twist became the dances of choice. Sunday's highlight was a railway roll along the mountains of the Adirondacks, where some of the most beautiful foliage scenes in the country can be appreciated.

The top performers of the day were 'The Juggling-Unicycle Man' and 'Elvis.'
On Friday, October 29, 1994, ten students dressed in their Halloween costumes for what is known as the Halloween Fun Run. The students started at 3:00 pm at the wooden bridge by the Campus Center. Their task was to run across the bridge, down the Service Road, around the dormitories, back to the Service Road, and again cross the wooden bridge by the Campus Center. Coming in first was Scott Humphrey, dressed as a "RUNNER," with a time of 6:42 minutes. In second and third places were Steve Hoffman and Jason Rupert with times of 8:02 and 8:51 minutes respectively. Dean Havanek and Cheryl Mager both won for Best Costume. Dean was a blue haired man and Cheryl was a bumble bee.

Can you say 'A Pepsi?'

Who's the scarecrow? Could it be Mike Campos?

The sisters of Beta Sigma Phi.

Mary and Patty dress up for the occasion.

Would you like to request a song from the new and improved Tarzan?!

An angel, a devil, an old woman, and yes — Tim “Buckwheat” Buckley.
Whew! Was that a tough softball game!

Bullwinkle invites all SUNY students to ride the Winterfest Express.

Winterfest is an annual activity sponsored by the Student Activities Board. This is a full weekend program starting this year on Friday, February 18 and ending Sunday, February 20. Teams of approximately eight persons are in constant competition throughout the weekend. Friday starts off the weekend on a "cold" note with snow softball and finally warming up with a party at The Upper Deck. The events on Saturday started as early as 8:00 am with the snow sculpture contest. Team competition included such events as: amoeba golf, snowball toss, dog sled races, and others. The day ended with entertainer Rick Kelley and an award presentation to the winning teams.

Keep it together! Don't fall, or we'll all go down!

Strike-1. Strike-2. That ball's outta here!

Let the good times roll.
Ha! Money, what money?

Doin' the Amoeba at SUNY Tech.

America's Funniest Home Videos winners.
And the Prof. said, "If they could only have concentrated this hard on their physics."

Middle: BRINNGG
... Mark Roblee, it's for you.
Left: The rink is here, but where are the players?
Bottom left: The next winter Olympic sport: Snow Volleyball.
Every year, the Student Activities Board and the many school clubs like to celebrate the December Holidays. Invited were faculty, staff, students and families alike. This year we had an approximately twelve foot tree. Each club made their own distinct ornament to hang. A few of the clubs created fun games for the children who accompanied their parents. These activities featured face painting, a hoop throw, ornament decorating, pin-the-tail-on-the-donkey, and of course Santa came to say hi! At the hoop throw, free fish were given away for hooping a cone three times in a row. If you correctly pinned-the-tail-on-the-donkey, you won a candy cane. Food and beverages were also served as the music played on. Both the children and the adults enjoyed themselves thoroughly.

Face painting was a big hit for the little children.

Hey Mom, can we get a tree this big for our house?
Ho-Ho-Ho! Happy Holidays! Left: Santa, can I have another glass of juice, please?

Spoonman? Not even close. But his music is good, too.

A few of the various club members help color pictures to hang for the festival.

Both Tim Buckley and Diane Donohoe think the best part of this party is going fishing!

Dave Garrett and his daughter enjoy the day.
Worm and Darryl stalking their next victim at Myrtle Beach.

Becca and Patty are living it up in Fort Lauderdale.

The cactus that went out of control in Washington, DC, on the next Oprah — featuring Beth and Phoebe (innocent victims).

Anders Sund (stunt double for the upcoming movie Snow-Bound) — takes a leap for the cameras.

(far right): I don't wanna get out!!

Hey Sam, how do I get this thing on?” asks Kevin.

It’ll all be over in a few minutes, Doreen.

Belly Bouncing!!

“Hey Sam, how do I get this thing on?” asks Kevin.
The Race For The Future 5-K was held on September 11, 1993 at our campus. The five racers were off in a tight pack as they rounded the first turn. As the racers settled into their places, Lenny Martin from Rome, NY was in the lead. Martin continued to lead the race that had started at the campus center, and wound its way down past the residence halls, through the “S” curve, then left onto Campus Drive; which is the start of a long, gradual, up hill climb, that gives the runners a full tour of the campus. Martin finished the race in 19:24. Other runners and their times included: Timothy Lamoy 21:06, John Gibbons 22:10, Frank Drayton 23:53. An honorable mention to Ron Robinson 25:10 from Antioch, Tennessee for traveling the furthest distance to attend the race. The Student Nurses Organization was on hand to provide medical attention if needed. Volunteers from the Mohawk Volunteer Ambulance were there to provide assistance to the runners on the course. The race was monitored by the members of the Telecommunication Club.

Hip-Hip Horray for Lenny Martin, the first place winner!
ASINO NIGHT

Place your bets, the game is about to begin.

Richelle and Mike selling tickets for the Spring Formal.

 CLUB FUNDING BOARD — CFB

CFB is a board funded and recognized by URSA. CFB funds all other clubs and is comprised of one representative from each of the clubs. CFB is responsible for Club & Board Days, Rocktoberfest, and the Spring Formal. Also, the CFB chairperson is responsible for overseeing the operations of all the clubs. In addition to the above events, CFB also tries to do such extra events as Final Exam Study Break, when the budget allows. Standing: Bart Vey, Nicoli Tyson, Wilfred Quinones, Robb Jones, Peter Cosper, Anders Sund, Ron Capwell, Richelle Villa, Tom Brewster, Dave Garrett, J.C. Figueiredo, Robert DeCarlo, Brad Miller. Sitting: Chris Puckey, Dave Cosson, Willie Domgo, Kim Barnish.

Club/Board
This year was the initiation of the Low Risk Choices Peer Education program at our campus. This was an alcohol education program designed to reduce quantity and frequency choices involving alcohol consumption among the students. A further goal was to educate the students about various alcohol related topics. Peer education is built on the premise that when it comes to communicating about certain topics, students are often more receptive to learning from one another rather than from "experts" or "authority" figures.

Standing: Mark Roblee, Jill Braungart, Jim Coler. Sitting: Sherese Barnes, Melynda Isaac, Sally Robilotto.

Above: Sherese, “What’cha talkin’ about Melynda?”
Above left: A puzzled look falls over Mark.
Left: Sherese at work. Go figure!
WCOT made another landmark move during the '93-'94 school year with the start of WCOT-TV. Campus Cable Channel 10 was opened up for SAB movies, but WCOT took full advantage of the channel to start a television station. In the start of the year, WCOT joined U-Network to receive and air college produced television. Programming came from many sources and Jefferson Wilson found many areas to create programming. In the spring, Ken Grossman and Glenn Krauss gave us Basketball coverage that would make broadcasting students think twice. This marked the first appearance of WCOT-TV on Harron Cable in under a year WCOT-TV was downtown. High Voltage is the next and continuing effort from WCOT-TV by Craig Schaffer and Ray Jashembowski. This is a show that reflects students' views, campus life, and cover any campus issues on students' minds with music breaks to keep the show light. WCOT-TV had an extremely successful first year.
Above: Craig, the camera man. He can find you anywhere!

Left: Jefferson "Airplane" Wilson.

Above left: And now for sports ... WCOT-TV High Voltage.

Here at the Student Recognition Banquet ... Above: And what are your views on the Marriott?
The Telecommunications Club had an eventful year for 1993 to 1994. The club has a strong membership of 25 active members and 20 partially active members that consist of a variety of majors. Many new events and activities undertaken by the club were designed to expose students to all aspects of telecommunications. Such activities included: Toll Fraud and Emerging Technologies seminars, several guest speakers, and a final trip to Bell Northern Research Facility. Interaction with other groups on campus was accomplished through activities such as Club & Board Day, Halloween pumpkin carving contest, Winterfest, and Leadership 2000. This year the club has also started several 1st annual events that included a 5K Run, New Logo, and an Awards Banquet to recognize outstanding achievements and contributions.
Photonics Club is an organization which allows students with practical ideas in the science field to discuss theoretical understanding, practical applications, or methods of improvements with fellow peers. The club is also very active in touring as it plans three to four visits to industry in the region a semester.
The Snowflake is a daily newsletter published, distributed and available for the whole campus community (Students, faculty and staff) everyday. Any student, faculty or staff member may place a notice in the Snowflake. Included in the Snowflake are the following sections: Meetings, Notices, Activities and Personals. Also new to the Snowflake for the Spring 1994 semester were the following sections: a Quote of the Day and an Employment, Sports and Election Information (for Student election information). Jennifer Krug, Editor; Chris Crane, Assistant Editor.
HOCKEY CLUB

The purpose of the Hockey Club is to acquaint members with rules and procedures of hockey, participation in playing and viewing games and further enhance social life on campus. Sitting: Phil, Steve, Matt, Stephanie. Standing: Craig, Ray, Dave, Jamie, Adam, Hanns — President

WRESTLING

The Wrestling club was founded in the fall of 1993 by a group of young men who wanted to . . . Wrestle, however their aspirations only came partly true. The hardships of getting funded and finding equipment were actually the easy part. The wrestling mats were donated to the club by Herkimer County Community College and other equipment was donated by “friends of the club.” The club had a rough first year and was forced to forfeit in our scrimmages against other area clubs due to the lack of participation. Oh well, better luck next year guys, always looking for members. Pictured L-R Tod Syversen, Capt. Gary Phillips, Dan Diggins, Asst. Capt. Marc DePuy. Absent: Ted Pelky, Rod Norman, Mike Campos, Bob Cooper, Advisor John Borner, Coach Ross Richard.
The Body Shop promotes the importance of physical fitness through exercise, nutrition and a healthy lifestyle. A major event held by the club is “Pressing for Pennies,” a fundraising bench press contest. (L-R): Robb Jones, Treasurer; Todd Villano, Vice President; Mike Stile, President; Bud Harris, Advisor; Michelle Hughes, Advisor.

Step right up. Don’t be shy. Do you think you can do it, Kevin?

Far right: Pressing for Pennies.

94 ... 95 ... 96 ... Go Jo Anne!

Far right: What? So you think you can lift more than me, Tough Guy!
Ms. Carol Crooms,
“Peace and Happiness Always.”

BLACK STUDENT UNION (BSU)

The primary objective of the Black Student Union is to provide education about our common African origin by establishing an atmosphere which provides unity, develops academic skills, and provides social activities among all students. We have coordinated and sponsored several annual events as well as honoring “Black History Month.” As one of the oldest organizations at SUNY Tech, we pride ourselves as an organization of distinction and great history. Our desire is to become more culturally and educationally aware of our African heritage as well as other heritages and to install this among the members of the Black Student Union.

Top left: BSU formal. The gals . . .
Top right: The guys . . .
Left: Another exciting meeting.
Awww, Amanda and Thierry.

Not too much further over, please.
We’re having a great time.
ISA consists of students from different countries including American students. Some of the club's main goals are to help ease the strain of the orientation process (transitions) for new international students, and to promote camaraderie. It also promotes multi-cultural perspectives and atmosphere. In the past, ISA performed different social and educational events including: International Dinner, Cultural shows, and trips to historical sites.

Above: Trip to the White House. (L-R): Aiko, Dave, Mbole, Bruno.

Top right: International Dinner, November 1993, faculty, staff, students, and guests.

Right: Burr... (L-R): Audene, Done, Kothrina, Best, Bruno, Mbole, Aiko.
The Institute of Electrical and Electronic Engineers (IEEE) is a group of special interest to students majoring in Electrical Engineering Technology, Computer Science, or Telecommunications. Among IEEE's major goals is that of increasing students' awareness of opportunities in these fields. Advisor: Prof. Rez; President: Joe Sherman; Vice President: Jatin Patel; Secretary: Ron Capwell.
Another excellent year for the SUNY Utica Ski Club with President Brice Shippley, Vice President Mike Flaherty, Secretary Don Loomis, Treasurer Jeremy Eddy and Advisor Dave Bramble. This year's Ski Club had over seventy members, sixty of which went on a weekend trip to Killington, Vermont. Put that together with several day trips to local resorts and some outrageous parties and you can see why Ski Club is considered by many to be one of the best organizations on campus!
The Environmental Club is a new club, started in the Fall of 1992 by then a senior, Ken Mowers. The club started with only 5 members and has grown to a membership of 25. The purpose of the club is to help heighten student environmental awareness. The Environmental Club is responsible for the establishment of a recycling program on campus in the dorms. The club sponsored its first Annual Earth Day Celebration on April 15, 1994. Thanks to the help of fellow sponsoring clubs and some local community organizations, this was a huge success and the club looks forward to future success and growth of this event.
The Students Nurses' Organization (SNO) is a club for all Registered Nurses who are pursuing their B.S. as well as all SUNY students. This year we have sponsored several events ranging from happy hours to blood pressure screenings at Club & Board Day. The most notable event of the year was AIDS Awareness Day which was attended by nearly 150 students and faculty. Because of the joint efforts of student organizations and administration, we were able to bring Henry Nichols to speak about HIV and AIDS. This helped to raise our community awareness regarding HIV. Thanks to all who made these events possible. Standing (L-R): Cheryl Mager, President; Michelle Conroe, Secretary. Sitting (L-R): Melissa Mumford, Michelle LaPage, Tamara Twitchell. Absent: Elizabeth Kellogg-Walker, Advisor & Dean of Nursing; Patrick Creedon, Treasurer; Michael Taylor, Jean Vanacore, Vice President; Carl Britton, Stacey Poddo.
Phi Beta Lambda is a business organization with over 50,000 members in the United States and the Virgin Islands. This year the Utica/Rome chapter participated in the National Fall Leadership Conference held in New Brunswick, New Jersey. We also took part in the New York State Conference in New York City. Fourteen members competed in the examinations to qualify for the National Phi Beta Lambda Conference to be held in Anaheim, California, this summer.
The roots of Alpha Phi Delta stemmed from the need of Italian students to form their own fraternity, because they were not welcome into others. Today men from all backgrounds are a part of the fraternity, but the Italian heritage that is ours is still remembered in our songs, traditions and activities. Our local chapter is known as Beta Chi. The group has grown to be a powerful organization on campus since it started in 1978. More important than the social activities, is the sense of brotherhood that exists among the members. All brothers have different reasons for joining the fraternity, but these differences allow for a well rounded group that depends on the contributions of each member. As a fraternity, Beta Chi is known for their fund raising activities for charities, social ties with their brothers at other universities, their road trips, their parties and especially SWAMPWATER!! This year the brothers were responsible for raising thousands of dollars for charity, including over $20,000 for Muscular Dystrophy.

Alpha Phi Delta

A small crab infestation sets in on APD. “Crue”, “Burf-La-tette”, and “Box Boy” on the phones raising money for Hospice.

Playing a round of 3-Man.
Alpha Delta Mu National Co-Educational Fraternity stands for tradition and excellence. The fraternity provides social contacts for the brothers, and most importantly, ADM broadens the brothers' knowledge of and interest in music. Active Brothers: Rob Sgarlata, John Rusinko, Marc Schultze, Jeanne Thomas, Kevin Callinan, Frank Behrens, Mark Selby, J.C. Figueiredo, Jim Diescher, Erin Spring, Sue Zurko, Brian O'Donnell, Rob Norman, Mike Campos, Matt Goldberg, Diana Frickey, Dave Bogert, Addy Spitzer (Advisor).

Can you pick out the newest members?

I'm so proud to have you as a brother!

It's a sofa beach party! But, no dogs allowed!

"Where's My . . . " Christmas Tree?
Beta Sigma Phi, International Sorority, formally known as Psi Lambda Rho is an organization that has over 250,000 members in 12,500+ chapters world wide. We are actively involved in the social, community service, and cultural setting. Sponsoring the Christmas party for dysfunctional teenagers and runaways of Utica who are in the Transitional Program. This program is a place of refuge that offers them a chance in life. Not only are we co-sponsors of the Blood Drive and United Cerebral Palsy, we contribute to the American Cancer Society, Muscular Dystrophy, and other meaningful causes. We are gathered together to dedicate our time and service to achieve a common goal to help those in need.

Active Sisters: Mellissa Doolen, Dagmar Kastenholz, Melanie Johnson, Patti LeFebvre, Robyn Carpenter-Dengel, Judith Bender, Kimberly Haddock, Rosine Raisch, Shannon Harvey (Alumni advisor).

Halloween party at the Upper Deck! "I saw the sign!"

Showing off the sweatshirts on a cold Utica day.

If you would like to support our organization, see us.
The goal of IGC is to promote good relations and improve communication among the Greek community. It coordinates activities, functions, and efforts of this community. In addition, it is the voice of the Greek community of URSA, the student body, and faculty/staff. It supervises and develops Greek expansion on campus. IGC includes representatives from the sororities and fraternities. This group holds major fund raisers in order to support their programs. At right (L-R): Jeanne Thomas — Pres., Dave Bogert — Treasurer, Rick Barnes, Chris Fritz, Rob Sgarlata, Rosine Raisch — Vice Pres., Judy Bender, Frank Behrens, John Rusinko. Kneeling: Jim Weidman — Secretary.

Dean Tezak kisses dog to benefit United Cerebral Palsy.
And a good morning to you, from URSA.

Patmore and Rupe moving the ball down field.

Jean, use this part of your foot to kick. Not your TOE!

Kelle, the ball won't go anywhere unless you kick it.

It's all you, Hudson!
This year's Women’s Volleyball team did have a trying year with a record of 0-22, but kept high spirits. "We had a fantastic time and everyone had a good attitude. And the whole team improved throughout the season," said Theresa D'Aprile. Although many new faces appeared, their experience from this year will carry on to the next. Good luck!

As Editor of the 1994 Genesis Yearbook, I would like to take the time to express my feelings about this edition of the Genesis. Producing the yearbook is not a simple task and not for anyone to do alone. The few people on the Genesis staff spent a lot of long hours putting the 1994 yearbook together in one semester.

Being the Editor was a lot more work than I thought it would be, but I loved every minute of it. I have met so many people and have done a lot of things I never thought I would do. They said the impossible would never be done but I have proved them wrong. I am glad to say that I have met my goal on completing this yearbook before leaving SUNY Tech. But I did not do it myself. I would like to give a special thanks to my staff Kristin Canger, for spending the time in the darkroom developing pictures and creating layout designs, and Sandra Lewis for typing in all the copies and captions for every page, producing final copies and dealing with the sales of the yearbook. A thanks also goes out to Andrea Brizzell and Danielle Chase for helping out when they could, Tim Buckley for some getting advertisements for us, and Elaine Reitzloff for giving helpful hints and answering all of our questions. And most of all I thank Charlie Bollinger, our Herff Jones representative, for his time, patience, and laughs. If I didn't mention anyone else, you are not forgotten, you will be remembered when people look and this book.

For all the Seniors, the past two years were the best and they will not be forgotten. I wish the best of luck to everyone with their future endeavors and dreams. I hope this yearbook will keep the memories of SUNY Tech alive forever. Every time you see and open this yearbook, you'll smile and laugh and know that Nothing Compares to the Class of 1994!

Best Wishes,

Karen Peckham
