### IITG Project Title

2014-Oneonta-Zhang-Developing a Semi-standardized

### 1st Choice:

Instructional Design- Student Engagement and Interaction

### 2nd Choice:

Instructional Design- Student Learning Support

### 3rd Choice:

E-Learning- Online Course Development Planning

### What recommendations would you make to scale-up or share your project more broadly (within an educational sector, or perhaps SUNY-wide)?

1. Develop an E-book for the outcomes of the project to reduce the text cost to the students.
2. Develop an Open SUNY course (Sullivan initiated one already, but more campuses can consider a similar course)
3. Apply for a next round scale-up IITG project involving more SUNY campuses to adopt the curriculum
4. Apply for a next round scale-up IITG project serving NYS high schools to prepare their ETS AP Principles
5. Apply for a scale-up NSF IUSE or CE21 project, with SUNY system provost office support letters and commitment letters from about 10 campuses

### If you would like to create a community of practice within the SUNY Learning Commons, please describe "members of your community" who would be most interested in your outcomes. Please be specific (e.g., math faculty, instructional designers, student services, registrars, administrators, accreditation or assessment specialists).

Computing faculty members, computer science, computer systems, information technology, etc.

### Do you intend to create an ongoing "Community of Practice" within the SUNY Learning Commons to continue work and dialog regarding this project?

Yes

### Overall, how successful was IITG in meeting your project goals? (You may elaborate on your response in the final question if not addressed elsewhere.)

Very successful

This is a very time demanding project. We are glad we made through most important things we could.

**Any additional comments or resources you wish to share?**

From the curriculum development point of view, the project meets the original goal. Curriculum refinement may take more time than expected and will be an ongoing process. We are highly satisfied with what we have achieved so far. Teaching of the curriculum needs more effort in the new future. Thanks for the support.
