Erin Kearney

Emailekearney@buffalo.edu**IITG Project Title**

2019-Buffalo (UB)-Kearney-Teacher Observation Video

Have you applied for, or received additional funds? (choose all that apply):

- Have applied for support from a large funding sources (e.g., NSF, NIH)

In 1-3 sentences, how would you describe how your project helps advance the SUNY mission?

This project most directly advances SUNY's mission to offer graduate education that allows for individual choice and meets the needs of society. Teacher shortage is pronounced in NYS and nationwide and use of video-based tools makes teacher education programs more attractive, engaging and effective. Implementation of this project has also advanced research and scholarly knowledge with regard to teacher education, as use of the platform produced data that will be analyzed and submitted for publication.

The video-based professional development platform provider contributed in kind certain features of institutional level metrics tracking within the platform for the grant year (value of \$1000).

1st Choice:

Discipline Specific Pedagogy

Discipline Specific Pedagogy

- Professional Education

2nd Choice:

Instructional Technologies

Instructional Technologies

- Video Production

3rd Choice:

No further selection

What recommendations would you make to scale-up or share your project more broadly (within an educational sector, or perhaps SUNY-wide)?

System-wide licenses for video-based professional development platforms such as Edthena would not only be beneficial to enhancing individual campus' ability to work with new teachers but would also encourage cross-campus collaborations around particular sub-fields of teacher preparation (science or Spanish teachers, for example). Furthermore, increased cross-system use of such a shared platform would strengthen SUNY's overall approach to teacher education pedagogy, bringing more dialogue and coherence to its approach. These are especially important tools as schools are less accessible (now because of the pandemic) but in all times when teacher candidates find themselves at a remote physical distance from schools in general or certain kinds of classrooms.
