

This II I Believe Statement

I believe fear is what drives us. As freshman students entering this whole new life one is bound to have fears. Fear of leaving home, fear of failure, and fear of finding new friends are just a few of the fears that run through your mind during your first semester. I believe that by facing these fears we can grow stronger and more confident in ourselves. Everyone says you will find yourself in college, but what if we don't? By facing that fear we become the person we are meant to be. I believe that each one of you will find who you are supposed to be by turning your fear into confidence and intelligence.
