- Questions? Call the Senate office at 395-2586 or the appropriate committee chairperson.

1. PROPOSAL TITLE:

Please be somewhat descriptive, for example, *Graduate Probation/Dismissal Proposal* rather than *Graduate Proposal*.

New Concentration in the Environmental Science Major: Wetland Ecology
--

2. BRIEF DESCRIPTION OF PROPOSAL:

By hiring a nationally-recognized wetland ecologist with funding from the Empire Innovation Research Fund, The College at Brockport now has the critical mass of expertise to offer a concentration in Wetland Ecology in the Environmental Science major. The ESB Department aims to attract a new population of science majors to the College with this unusual program in the U.S.

3. ANTICIPATED DATE OF IMPLEMENTATION:

Fall 2009

Enter date this will be effective if passed by the Senate.

3. Brief rationale for changes.

In the fall of 2008, Dr. Douglas A. Wilcox, a nationally-recognized expert in wetland ecology, joined the faculty of the Department of Environmental Science and Biology as the Empire Innovation Professor of Wetland Science. His expertise on wetlands, combined with strong existing programs in aquatic ecology/biology and watershed science in the ESB and Earth Sciences Departments, make it possible for The College at Brockport to become one of the few institutions of higher education in the U.S. to be able to offer undergraduates professional preparation for graduate school or a career in wetland science.

This new concentration in the Environmental Science major is aimed at attracting a new population of science students to The College at Brockport. To achieve this goal, we will recruit in high schools and community colleges from Maine to Minnesota.

4. Description of new courses. **(None)**

5. Staffing Issues. **(None)**

6. Resources and facilities that may be needed to implement the program. **(None)**

7. Academic administration commentary.

a. Letter of recommendation from the chair—on behalf of the ESB Department, the chairman of ESB drafted this document. Therefore, he approves its contents, and a separate letter is not needed.

b. As a member of the Environmental Science Board, Dr. Mark R. Noll, Chairman of the Department of the Earth Sciences, approved this concentration, so a separate approval is not needed.

c. Approval from Dean Appelle, School of Letters and Sciences.

I approve the attached proposal for a concentration in Wetland Ecology.

Stuart Appelle, Dean

Letters and Sciences

Jim

The Department of Chemistry supports the new Wetlands concentration in The Department of Environmental Science and Biology and does not foresee any resource issues with possible additional enrollment in CHM 305.
