Faculty Senate Resolution on Proposed Value-Added Assessment Memorandum of Understanding between the University Faculty Senate and System Administration

Whereas, the Faculty of the State University of New York has consistently endorsed the assessment of student learning outcomes for more than two decades, and

Whereas, national experts in the field, such as Barbara Cambridge and Peter Ewell, have argued that campus-based, not system-based, assessment constitutes best practice, and

Whereas, substantive methodological issues that will influence the results of university-wide, value-added assessments of general education student learning outcomes are not adequately addressed in the proposed Memorandum of Understanding, and

Whereas, the Faculty of SUNY Brockport, has strongly endorsed campus-based assessment of general education student learning outcomes in SUNY as overseen by the General Education Assessment Review process, and

Whereas, the Faculty of SUNY Brockport believes current and adequate mechanisms of accountability are available to System Administration and the Board of Trustees through both the campus-based assessment programs and the separate campus Memoranda of Understanding,

Therefore, Be It Resolved that

We, the members of the Faculty Senate of SUNY, Brockport support the campus-based assessment of general education student learning outcomes and strongly oppose any attempt to impose a university-wide, value-added assessment of those outcomes on SUNY's state operated campuses.
