

BROOME TECH SWINGS INTO SPRING!

Semi-Formal To Launch Weekend

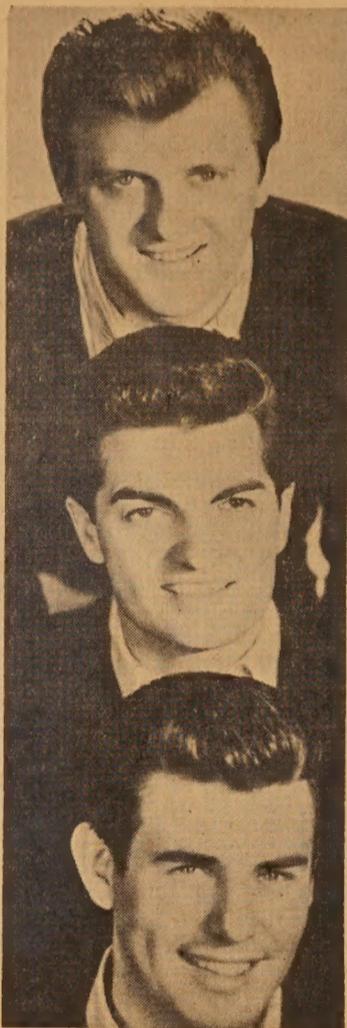

The commencement of the annual Spring Weekend is fast approaching and everyone is looking forward enthusiastically to the many events which will be featured.

The semi-formal dance is tonight from 9:00 p.m. to 1:00 a.m. at the Fountains Pavilion where handsome young men will gracefully lead their dates across the ballroom floor to the music of the Moe B Combo. Students are reminded to bring proof of age: a Sheriff's ID card or, as a substitute, two other sources of proof of age.

The picnic, which is scheduled for Saturday from 11:00 a.m. to 5:00 p.m., will be a day of outdoor fun including sports, dancing, eating and, of course drinking. Bernie and the Cavaliers will be there to play for a dance to be held in the Pine Plains Pavilion.

The main attraction of the weekend is, of course, the Saturday night concert to be presented by the popular trio, "The Lettermen". "The Lettermen in Concert," which will be presented from 8-10 p.m. in the SUB, will be followed by a dance from 10:30 p.m. to 1:00 a.m., featuring Ira and the 3 Failures.

For a weekend of real pleasure and entertainment attend the events of the Spring Weekend. Make it the biggest and best yet!

The Lettermen, who are Tony Butala, Jim Pike and Bob Engemann, are ready for their concert here tomorrow night in the gym from 8 to 10 p.m. They have entertained at more than 350 colleges throughout the country, and are in great demand. They have cut many records, and are veterans of many television shows.

Lettermen To Climax Weekend

The Lettermen are coming to Broome Tech, and this group has nothing to do with varsity basketball players. These Lettermen are the three young fellows who have recently become one of the nation's top-notch musical trios.

They will perform in the Broome Tech Student Center Saturday night (May 8) from 8 to 10 as the climactic event

of the college's annual Spring Weekend.

The Lettermen are a performing as well as a vocal group, as they play instruments, do vocal impressions and throw in comedy too.

They are Tony Butala, Jim Pike and Bob Engemann in private life, and are already veterans of many television shows, recording dates and college concerts.

One of the unique features of their singing is the fact that all three have the same voice range. So they frequently interchange their singing parts, and all take solos.

Campus Open To Public Next Friday Night

"See your comprehensive community college in action!" This is the theme of the 1965 annual Community Night at Broome Tech May 14. The general public is invited and everyone studying here should invite his parents and relatives to the event.

Parents and public can come and see, among other things, the dental hygiene clinic, computer center, nuclear physics laboratory, machine shop, and electronics lab. These will not be "still picture style" because students will be on hand to show off their demonstrations, projects, and experiments. Instructors will also be on hand

to meet and talk with parents.

Brochures will be available and guides (D.H. students in uniform) will be at every door to show strangers around. Inside the buildings, student guides will show the guests around and answer questions.

Mr. Behr, publicity director of B.T.C.C., has shown many groups through the school and he says that "people are invariably amazed at what they see". Besides seeing how their tax dollars are being used, the public can see why expansion is needed, why 22% of the area graduates come to Tech, and why it is a leading Eastern Community College.

New Honor Society Members To Be Announced At Convo

This year the annual Honors Day Convocation will be held on May 21, at 9:40 a.m. As the name implies, this entire convocation is dedicated to the presentation of awards to students who have exhibited exceptional scholastic ability. Many of these awards are presented by various business and industrial firms throughout the county, while others are set up by different organizations on campus.

Of course, the highlight of the program, is the induction of new members into PHI THETA KAPPA. This year, the group

of students to be inducted is far greater than ever before, and many students are due for a pleasant surprise. The names of these members have already been selected, and will be kept strictly secret until that day.

So, even though some previous convocations have been very sparsely attended, everyone should plan, with great optimism, to come to this one, because who knows, maybe your name is on one of the lists. Even if you don't receive anything, at least you will know who your most superior classmates are.

CISGA Representatives Plan Ideal College

by Mary Jo Zemek
April 25-27.

The annual College Institute Student Government Association (CISGA) conference was held at Grossinger's in Liberty, N. Y. on April 25-27. Some 29 junior colleges of New York State were represented. These colleges are divided into regions according to location, with Broome Tech in Region IV.

This year Region Four was in charge of holding the conference and Broome Tech was assigned the responsibility of registration. The students were excused from classes and they attended meetings and discussion groups at the conference.

The students who attended and their representative organizations were: Dennis Telfer, Region IV's '66 vice-president; Mary Jo Zemek, TECH TALK; Dan Little and Jim Walker, freshman class; Ann Marie Popik, Dick Leahy, John Noreika, and Dianne Brown, Student Council. The students were accompanied by Mr. Pufky and Mr. Appel.

The students were assigned to discussion groups in which they organized an ideal college called "College X". Each group worked on a specific organ of "College X," such as faculty, curriculums, co-curricular activities.

After two days of discussion and organization, "College X" was established. It's location is to be twenty miles south of Syracuse, and it is to be both a residence and a commuter

junior college.

No faculty was included in the discussion groups, only students. Each group was controlled by a student discussion leader and Broome Tech's Dan Little was the discussion leader for Student Personnel.

Vincent Trotta, Dean of Alfred Tech is now compiling all of the data of "College X" turned in by the students. The students built in three days a college which would take the state two years.

The conference also contained college tables in which each college laid out its trademarks, yearbooks, newspapers and any items of interest for the other colleges to look over and to take back to their home college if it would benefit them.

The conference was a tremendous success and many faculty members were stupefied at the job that was attacked and conquered by the students.

Certain faculty were praised for the fabulous job they had done in organizing the '65 CISGA conference. One was our own Mr. Robert Pufky. As a point of interest, Mr. Pufky was referred to as DEAN Pufky. Even the faculty at CISGA realizes the great significance that Mr. Pufky has always portrayed.

Not only was the conference a success, but the entertainment provided for and by the students was great too. For a report on that aspect of the trip, you must privately contact one of those students who attended.

Young Family Disaster Brings Much Campus Response

by Mary Jo Zemek

During and after two and a half weeks of disaster and mass confusion, Mr. John Young, photographer and audio-visual Technician has remained and still remains the same carefree and happy-go-lucky guy that he was before disaster struck his family.

He returned to work, not crying but smiling. He answered questions with statements

such as "That's the way it goes," "We'll make the best of it," "Don't worry, we're all right."

On that disastrous Tuesday afternoon, Mr. Young rushed home to his family and a burning home only to find that the damage was already done.

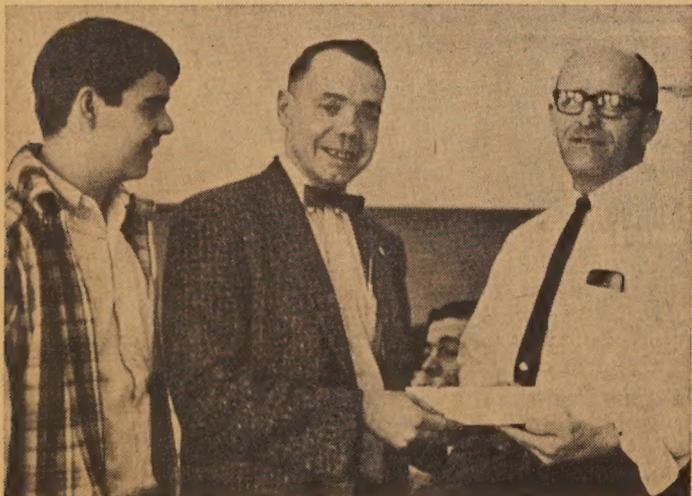

The interior of his home was destroyed without the protection of fire insurance. All of his children's clothing was eaten up by the fire except their

Easter outfits.

After Mrs. Young was taken to the hospital and the children were well taken care of by friends, Mr. Young managed to salvage some dishes, wrapped them up and laid them aside until he was able to take them somewhere. After finally finding an apartment he returned to his destroyed home only to find that someone has stolen the dishes.

The Young family accepted all that happened to them, but the students and staff at Broome Tech did not. The Business Club donated \$50 to them and monetary jars were set up in the cafeteria and \$68.16 was donated. Clothing was and still is being donated for the Young children. Books of blue or green stamps will be welcome too.

Mr. Young is a great friend of the Liberal Arts department and especially the TECH TALK staff. He is not just another member of the staff, but he is a part of us. Mr. Young would give his right hand to any student as long as he thought he would be helping, and now Mr. Young, we are giving our right hands to you, hoping they will help. You not only deserve them but you are a part of them.

John Young (Center) receives a check for \$68.16 from cafeteria manager, Mr. Rositer, while Tom Mauger looks on. The money was contributed by the students to help Mr. Young and his family, whose house was burned out recently.

EDITORIAL

The convocation committee placed a suggestion box in the cafeteria in order to find out what the students would enjoy seeing at next year's convocations.

And our student body, being true to form, responded in their usual childish manner. Ninety-nine percent of the suggestion forms that were returned were vulgar, obscene, and disgusting. Such suggestions were, of course, expected; but to have such an abundance of ribald rot it not only disheartening, but sickening.

It shows that our own student body, a typical American college-level group, has moral standards which have degenerated to an alarming low ebb. It shows that problems of sex and collegians are not peculiar to Harvard and Yale, not peculiar to only a dormitory campus, but widespread throughout the country and our own campus.

Unfortunately, sex maturity and emotional maturity do not occur simultaneously. The result is that students partake in sexual activity outside of marriage and suffer such consequences as guilty feeling, illegitimate conception, or a forced unhappy marriage.

You have indicated sex as your preferred convocation topic, and maybe you should get it. Someone should set you wise-guys straight about a topic you think you know so much about, but don't.

EDITORIAL

Spring Weekend, the biggest social event of the year on campus starts tonight. With it will start a drinking spree that most likely won't end until late Sunday night.

The weekend has been planned for the students to have a good time, but a good time can turn to tragedy if a reckless drinker becomes a reckless driver. Most students will be driving this weekend, and, for safety's sake, must be in control of all their faculties when behind the wheel. The men should remember that they have not only their own but also their date's well-being to consider; the girls should have the courage to discourage their dates from driving under the influence of alcohol.

Have a wonderful Spring Weekend but make it safe, not sorry.

Tech Given Chance To 'Outbleed' Harpur

Broome Tech is beginning a blood drive. It is necessary that every student who can contribute, should contribute. All students between 18 and 59 years of age are eligible (the faculty included).

Unmarried minors (18 to 21 years of age) must have a parent's consent card filled. Just clip out the one appearing in the paper or contact George Secord, E.T. for one. Only six people can be taken every

fifteen minutes and therefore donors should sign up on May 9 to choose a convenient time. The donations will be taken May 12 from 9:00 a.m. to noon and from 2:00 p.m. to 4:00 p.m. Harpur has already contributed 142 pints of blood. No self-respecting Broome Tech student can allow this record to stand in Harpur's favor, and therefore everyone is urged to contribute.

Let's beat Harpur, so let's make 150 pints our goal.

PARENT'S CONSENT

Date:

(Name)

has my permission to donate a pint of blood to the Broome County Blood Program.

Tech Talk is the student newspaper on the Broome Technical Community College campus. It is published twice a month during most of the school year by the students and for the students.

Letter to Editor

April 29, 1965

Editor, Tech Talk
Dear Miss Telfer,

I hope that you will allow me to use a little space in TECH TALK to express in some small way the deep sense of gratitude and appreciation that my wife, family and I owe to the students here at Broome Tech.

The immediate and gracious response of the student body after the disaster suffered by my family and myself was overwhelming, especially in view of the light in which the "average" college student is held today. Obviously the college student at Tech is much above the "average".

It is impossible, I'm afraid, to express our thanks to everyone who helped in so many ways. But I would like to thank especially the Business Club, the members of Circle K and ALL the students who contributed to the "jug" placed in the Cafeteria for their immediate assistance, and obvious sacrifices made in our behalf.

It has been said that true friendship is not a measurable quantity. One cannot realize the truth of this axiom until placed in such a position as we were a couple of weeks ago.

To all our friends at Tech, our deepest and most sincere THANKS for your kindness and thoughtfulness. I only wish there were some ways to better express our feeling. But for the moment this must suffice.

Very truly yours,
John Young-AV Dept.

IT'S SPRING!

by Mary Anne Burke

When books no longer hold their charm,
And girls would rather hold an arm;
When walls restrain the souls of men,
We know that Spring has come again.
The heavy weight of winter's gone;
We search the fields for lamb and fawn;
With every living thing that blooms
Proceeds to chase out winter's gloom.
Each man that lives upon this earth
Feels in his heart what Spring is worth.
Spring has the power to free the soul;
With that same power—a man feels whole!

Choir to Sing At Alfred

On May 14 the College Choir will be going to Alfred Tech to participate in a Choral Festival. They will leave Friday at 3:30 and return Sunday afternoon. They are going to be competing against schools from all areas of New York State.

The Men's Glee Club will sing a few selections and the Women may sing something alone. The Choir will sing selections from Purell's *Come Ye Sons of Art*, Bruckner's *Ave Maria* and Nystedt's *Cry Out and Shout*.

We hope all goes well with the choir and we wish them the best of luck at the festival.

THE TINDER BOX

By Serg Naramore

June and graduation time is rapidly approaching, and most of us are anxious to depart from these dear hallowed halls. As much as we might think differently, this institution is going to survive without us, although admittedly it has been changed by us and because of us.

Yet, we Seniors and those unfortunate dropouts are not the only ones leaving. There is a man leaving who has done as much for the college as any other individual, a man who has done as much for the students as any other administrator.

Last January this individual gave a lecture on "Empathy" and although many times we judged him to lack that on which he talked, we see on reflection that this man did his best to practice what he believed in. The fact that at times this did not seem good enough to us is not a fault on his part, for even he has great restrictions placed on him.

The thing we like to remember about him is that he always listened to our gripes and our problems, and regardless of his position he was always warm and friendly, and always tried to be understanding, even to "see our problems through our own eyes."

This man, this individual, this scholar, this gentleman is of course none other than Dr. Frank M. Chambers. We hate to see him leave Broome Tech because we know his departure and our loss will have a great effect on the college next year. A vital link in student-administration relations and understanding will be gone.

We only wish Dr. Chambers the very best in his new position, and thank him for the help he has been to us during the last two years.

"Good-bye good Guy!"

LAGADO

by Michael O'Connell

In keeping with the upcoming Spring Weekend, this week, this column finds it realistic to agree with the editorial which appeared in the Harpur College newspaper on April 1. The editorial condemned the practice known as P.D.A. or public display of affection. Their main fault finding with this practice seemed to be that it tends to frustrate observers of both the male and female gender who were not taking part and, therefore, is terribly impolite.

With the plans being made by students today for the upcoming weekend with such schemes as the B.B.C. and other activities planned, let the student body keep in mind the point of the editorial and be careful also of catching cold in the damp old leafy woods.

This column wishes to congratulate Mr. Peters of the Music Department and all those students who played at the Jazz Concert last Saturday in the SUB.

Their performance was in every way very professional and showed that a great deal of work had been done on the part of both the students and faculty involved.

Special praise should also go to Sally Zillic who, in leotards, is probably equal to Dr. Strangelove's "Doomsday Machine" and could be classified as the ultimate weapon in laughter.

A Hard Look at Hardy

David Hardy, director of *Look Magazine's* motion picture and television documentary program, spoke here April 21, on the problems of the middle East.

Although an intelligent and informed man, Mr. Hardy was not especially coherent and well organized during his speech. He shifted from topic to topic and,

at times, confused his audience. However, at an informal discussion following the convocation, Mr. Hardy appeared relaxed and congenial.

Concerning the trouble in Viet Nam, Mr. Hardy said "the South Vietnamese never had a war . . . it is a war of our creation," which he blamed on our "behavior toward China."

The United States, he expounded, is actually supplying the North Vietnamese with weapons, since they confiscate those dropped by the South Vietnamese which are supplied by the United States.

Mr. Hardy also spoke on Red China, India, the population explosion and freedom.

Activity Committee

The Student Activity Committee consists of four faculty members and the president of the Student Council. It approves, recommends and supervises the policy of all student activities, except athletics.

David Hardy

Concert Good And All That Jazz

Last Saturday night Broome Tech had a real treat—a jazz concert of the first order. The jazz players were Broome Tech students who play with the Broome dance band. The jazz group was founded and directed by Mr. Jack Peters of the Music Department. Also performing was a dancer who will no doubt someday perform with June Taylor. This dancer was Sally Zillic.

With all people present, there was almost complete agreement on a number of things, one being that the music was of excellent professional quality, and another being both Mr. Peters and the students had done a great deal of hard work and deserve a good deal of credit. Everyone there, both during and after the concert, had one thought, this jazz is great and everyone who missed it is missing real entertainment.

Practical Dental Exam May 13

The Practical Section of the New York State Dental Hygiene Examination will be held on Thursday, May 13 in the clinic of the Dental Hygiene Department. One or more dentist from the State Board of Dental Examinors will administer the tests. This is one phase of the requirement for a license as a dental hygienist. The other phase is, of course, the written exam prepared by the National Board of Dental Hygienists which has been approved by the state of New York. In order to practice, the written and practical tests must be passed.

The practical exam includes the successful removal of calculus (tarter) and stain and giving dental health education instructions, also the possibility of sharpening instruments, along with other phases of the Dental Hygiene Program. In these tests, many of the faculty members and students act as patients.

In the past, Miss Stitzer commented that to her knowledge, "the girls have always passed the practical side of the examination and we're very proud of the achievement."

CITADEL

Citadel, the campus year-book, provides a record, mostly pictorial, of the school year, and as such the objectives of its staff are to be historical as well as amusing.

Dawn Robinson and Warren Elliott rehearse a scene from the one-act play "Impromptu" which will be presented here.

THE WAR ON POVERTY:

a message to the Nation's college students...

Inspiring causes have always fired the imagination of students.

Today the United States is committed to the greatest humanitarian cause in its history—a massive counterattack on the causes of poverty, which are robbing 35,000,000 Americans of the opportunities most of us are free to pursue because we had the advantage of a decent start in life. That start has been denied to one-fifth of the nation's people. Thirteen million of them are children.

This is a moment in history for the fortunate to help the least privileged of their fellow citizens. You can help this summer, or for a full year if you choose, as a volunteer in the War on Poverty.

In July and August, 30,000 volunteers will be needed in their own communities to assist four- and five-year-old children of the poor through Project Head Start Child Development Centers. Thousands more are needed to live and work among poor families by enlisting in VISTA, the domestic Peace Corps.

In Head Start, volunteers work side-by-side with teachers, social workers, doctors, and other professionals to give pre-school children advantages which can change the patterns of their lives. Many of these children have never held a doll, never scribbled with crayons. Meager environments have blunted their curiosity. Some are spoken to so rarely that they are unable to form sentences.

Head Start volunteers will read to children, take them on outings to zoos and

parks, organize creative play for them, and help build the security and self-confidence they need to succeed in school. The rewards come when a withdrawn child begins to ask questions or responds to the affection for which he has been starved. Without such help, many of these children would be headed for school failure and the poverty cycle which trapped their parents.

Many young people who are 18 or older and can serve for a year enroll for training in VISTA—both to help others and to enlarge their own capacities for teaching, social work, or careers in sociology, economics, law, and other fields.

Home base for VISTA volunteer groups can be a city tenement row, a struggling farm community, an Indian reservation, a migrant labor camp, or a mental hospital. Volunteers may counsel school dropouts, organize recreation programs, tutor children who are behind in school, explore job opportunities for the poor—in short, do whatever is needed to help people find their way up from poverty. Volunteers become respected members of the communities where they work.

The pay is nominal—living expenses plus \$50 a month paid at the end of service. But the opportunities are great: you can help pave the way for an America in which the democratic ideal is big enough to encompass everyone.

Will you lend your abilities to people who live in need? Join the War on Poverty today!

Tuition and Fees

Tuition and fees are payable at the Finance Office not later than the last day of the first week of each term.

Orientation Leaders

ATTENTION all freshmen. The class of 66 is now planning the freshman orientation program for the incoming freshman class. Anyone interested in organizing the program or becoming a student leader should immediately contact Danny Little in the Business Department. Approximately 100 students are necessary to put on this orientation.

Instead of just talking about the disadvantages of your orientation and the items lacking, get busy and contribute your ideas and your help to make the next orientation one that won't be forgotten by the incoming freshman or by this college itself.

New ideas concerning orientation program, hazing and gimmicks are badly in need.

?? Campus Quiz ??

To clarify some misconceptions around campus by the students and the faculty, TECH TALK'S article titled CAMPUS QUIZ, is not written by any one person on the staff. The questions are contributed by anyone who feels that the information may be interesting to the student body, or should be exposed.

What two co-eds went double-dating and ended up at an AA meeting?

What two chaperons received a letter from Grossingers Stating that they were happy to inform them that they would be sharing the same bathroom?

Where do the bees go now that she's let her hair down?

What instructor believes that the only way for the Republican Party to survive is to run the Ajax White Knight?

Where did everyone go? (Standard question at every convocation.)

What curriculum used to be known as the Short Circuits?

What if we told you participation is 100% better than last

year? (But what is 100 x 0?)

What might a BTCC male say concerning the draft? ("I have not yet begun to fight and I don't intend to.")

Why are those D.H. Seniors always looking down in the mouth?

Who said: "AMPS serves one good purpose. It keeps Tech students off the street."

What member of the library staff recently took the fatal step?

What business student is Goldfinger's counterpart? (Well, his social security number starts with 007)

What student is every math teacher's nightmare?

INTRAMURALS

Softball Strikes In

The intramural volleyball season concluded last week with the faculty coming out on top in the final standings. They had a perfect 9-0 record while crushing all opposition and illustrated the value of experience.

They proved to the younger, less-experienced students that they aren't ready for easy chairs, footstools and snap-open cans just yet.

Unfortunately the rest of the teams didn't do as well as the faculty.

The Electrical Frosh team finished second with a 7-3 record and the Business Senior B team came in third with a 7-4

record. With spring here, and with the beginning of major-league baseball, it seems that intramurals got into the swing of things with softball. The teams have been submitted to Mr. Daub and they are all set to "Play Ball." A team will consist of ten players and a game can't begin unless each team has eight men ready to play.

The rules have been modified somewhat to allow more innings to be played. Two strikes will retire a batter, and a foul tip or foul ball on the second strike is an automatic strike-out. There will be no bunting or base stealing, a player will be walked on three balls, and each team will have two outs in an inning.

Doug Fredericks takes his licks in batting practice, as Dick Sleeper does the catching.

Love's Not for Toncola — Or Is It?

by Sandy Shimer

Although there have been only a few tennis matches this season, it has been enough time to observe the remarkable tennis talents of Mike Toncola.

Tennis is nothing new for Mike as he has been active with this sport for 15 years. At the early age of 7, Mike began swinging tennis rackets. Since this time he has played in many tournaments on the East coast, and his skill on the courts shows this great amount of experience.

At Central, Mike played tennis for 2 years gaining 2 varsity letters. In his last year there, he also won the tennis sectionals. After graduation, Mike "kicked around" the West Coast for awhile, and attended Porterville College in California

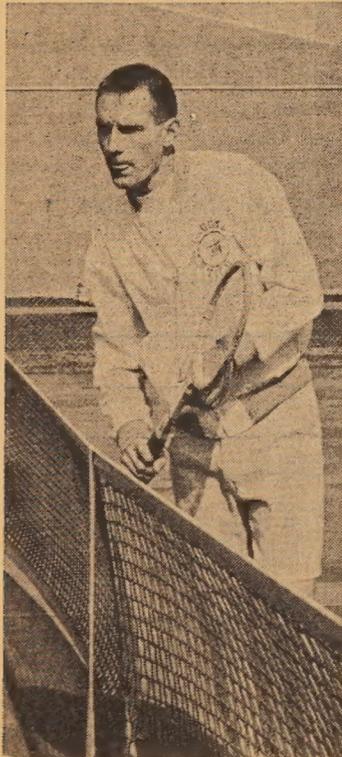

where he also played tennis.

In '63 he came to Broome Tech and entered pre-Tech. At the present time he is in the L.A. Curriculum. Mike plans to graduate from Broome Tech and then transfer. He wishes to enter either Northwestern in order to work for the F.B.I., or attend Cortland or Oneonta and major in English.

Mike is also interested in other sports such as baseball, basketball, and soccer, but has only played these on an intramural level. As for him being a spectator, Mike enjoys pro football. He's a great fan of the New York Giants, and (apologies to Coach Winters) says he likes them even better than tennis.

Outside of tennis, which is his favorite interest is quote, "Dating Linda Glover."

Well as can be observed on the courts at any tennis match, Mike Toncola has the talent and experience of a great tennis player, and will truly be valuable to our team.

Mike Toncola

Tennis Team At Home for 2

Having already played three matches, the Broome Tech tennis team shows a record of one win and two losses. These losses were, in one case, due to windy conditions at Mohawk Valley, and in the other case playing against Cornell University which is not a commuter college.

Onondaga, which was our first win (7-2), proved to be no competition for the team, and although we lost at Mohawk (6-3), Jim Murphy and Tom Mauger individually won their matches.

Just a reminder: our next two matches are at home this week and next weekend. Broome Tech hosts the Region Three Tourney on May 14 and 15.

2 Transcripts

Each graduate is entitled to two transcripts of his work completed at the College. One dollar is charged for each additional transcript.

BUSINESS CLUB

The Business Club is affiliated with the Administrative Management Society, formerly known as NOMA (National Office Management Association)

Rough Start In Baseball; Tourney To Be Here May 14-15

by Sandy Shimer

Well, baseball is underway, and although our record, 2-3, isn't the best, good ballplaying on the part of our team has been displayed.

And they're looking forward to next weekend's Region 3 tournament right here at Broome Tech—on May 14 and 15.

Our first game Wednesday, April 21 at Keystone, we won with an impressive score of 13-3. Les Rorick was starting pitcher, but after 2 innings he was relieved by Bernie Forse who pitched the remaining five innings. Forse pitched an excellent game with ten strikeouts, and was credited with the win.

Jim Andrews, our second baseman, also played a magnificent game. He went 3-4 and led off the sixth inning with a home run.

Saturday, April 24 was a real bad day for the Hornets, for they lost a doubleheader to Dutchess Community College. The first game we lost 4-1. Although his teammates weren't quite on the ball, Wally Rezucha, who pitched the entire game, actually played our whole game for us. He had a no hitter going for five innings and had seven strikeouts. He also got a triple in the third and scored our only run when he came in on a passed ball.

The second game we suffered

a 6-2 loss. Les Rorick started and lasted three innings, and then was replaced by Don Jones in the fourth. James finished the game and looked extremely good in relief. Doug Frederick, first baseman, also did a good job. He went 2-2 and hit a double in the fifth inning. Rorick was credited with the loss.

Thursday, April 29 at Mohawk we were on the ball again and got a 5-1 victory. Bernie Forse pitched the entire game and got seven strikeouts, and gave up three hits and no walks. His total record is 2-0. Don Jones displayed brilliant field work with six difficult assists.

At Cornell Saturday, May 1, we had another bad day when we lost to the Frosh, 7-0. Wally Rezucha was the starting pitcher and completed six innings. He was replaced by Don Jones in the seventh and Les Rorick in the eighth. The game was pretty even until Cornell got four runs off of five hits in the sixth. Another thing that really hurt the Hornets was the seven errors made. Wally Rezucha received the loss.

Total boxscore for first five games:

	AB	R	H	RBI	E
Andrews	17	4	5	3	1
Cicotti	10	2	3	0	2
Forse	11	1	2	1	0
Fredrick	15	2	4	1	0
Halter	15	3	2	0	5
Hitchcock	5	1	0	0	0
Jones	14	2	2	0	1
Rezucha	4	1	2	0	0
Rorick	11	1	1	0	1
Sleeper	15	1	2	1	3
Smith	13	2	4	0	0
Westfall	4	1	0	0	0

CAMPUS CALENDAR

- May 7-9 Spring Weekend
- May 7 all day Regional American Technical Education's Atlantic Meeting — Little Theater
- 9 p.m.-1 a.m. Semi-Formal dance, Fountain Pavilion
- May 8 10:30 a.m. Tennis vs. Auburn
- 11:00 a.m.-5:00 p.m. Picnic—State Park, Pine Plains
- 12-4:30 p.m. Music — Bernie and The Caviliers—Pavilion
- 8-10 p.m. "The Lettermen In Concert"—Gym
- 10:30-1 a.m. Dance —Ira and the 3 Failures
- May 11 1:30 p.m. Convocation of comic and serious dramatic presentations by Seniors in Prof. Kirkpatrick's speech class. In Little Theater. Classes will not be shortened.
- 4:30 Baseball vs. Baptist Bible Seminary
- 6-8 p.m. Telephone Company Presentation of High School Science Teachers—Faculty Dining Room
- May 12 3:00 p.m. Golf vs. Delhi
- 9 a.m.-3 p.m. Broome County Blood Bank—SUB
- May 14-15 Region 3 Tennis Tourney at Broome Tech
- May 14 Community night — all buildings
- May 15 Region 3 Baseball Tourney at Broome Tech
- 11 a.m. Golf vs. Auburn and Paul Smith

- 9:30 p.m.-12 Informal Dance
- May 31 Memorial Day — No Classes

Golfers Capture First 4 Matches

Broome Tech's golf team has started off the season with four quick wins and is currently undefeated.

Broome thus far has overpowered Keystone 14½-½, Onondaga 5-0, Fulton-Montgomery 3½-½, and Mohawk Valley 4-1.

However, this year's hardest matches are still upcoming, these being the regionals and Cornell Frosh. At present, the standings on the golf ladder are Joe Tiderencel, Tom McCarthy, Steve Drosdek, Bob Lesko, Bill Humiston, and Jim Whal.

Social Committee

The Social Committee is one of the most important Student Council Committees, as it is responsible for the extensive social program of Council.

Techers Needed As Tutors

There will be a chance for Broome Tech students to work on volunteers at State Hospital this summer. One student is already planning to conduct musical activities for patients there, and another student is considering helping with athletic activities there.

There will also be several opportunities to teach classes of teenage patients, to tutor individual patients, and to per-

form other services at the Hospital.

In the fall there will be even more need for volunteers in teaching, tutoring, recreation leading, and other activities, and the Hospital would like to know now what Broome Tech students are considering such work.

If you wish more information or wish to express your interest in such work, consult Dr. Greenwood, T 108.

'Convocation' Next Tuesday

A program of comic and serious dramatic presentations will be given in the Little Theater on Tuesday at 1:30 p.m. by seniors in Prof. Kirkpatrick's speech class.

All students are welcome to this "informal" convocation. It is "informal" because classes will not be shortened that day. But all students who do not have class at that time are welcome to attend.
