SUNYConnect LMS (V.18)

The OLIS, ITEC and Ex Libris have installed ALEPH v.18 (in a test environment). It is projected that the actual campus upgrades will begin next year, perhaps starting in first quarter 2008.

SUNYConnect LMS (Managed Services)

Along with significant other ALEPH support activities, many OLIS staffers are working with the "managed services" campuses (Clinton, Delhi, Niagara, Purchase, Rockland, Sullivan, Ulster and Westchester).

SUNYConnect LMS (Syndetic Solutions)

Campus-specific codes have been established for the [Syndetic Solutions](#)' components (cover image, table of contents, etc). This will allow for SUNY-wide and campus-specific use statistics

Electronic Resources (EBSCO)

The per article download cost for SUNYConnect's [use of those EBSCO databases](#) was \$0.06 (6 cents) (July 2006 – June 2007).

Electronic Resources (ScienceDirect)

The SUNYConnect agreement for ScienceDirect expires at the end of 2009. In September, the SUNY Collections and Access Council, university center/HSC library directors and OLIS representatives discussed possible pricing models if the agreement is renewed. After examining a number of models, the group focused their recommendation on one that is based on actual usage of the resource. That recommendation has been brought to both S.A.C. and SCLD.

Electronic Resources (ScienceDirect and 360Link)

Serials Solutions has created a SUNYConnect-specific "knowledgebase" for ScienceDirect. The "SUNY Science Direct Titles" collection strives to be an accurate definition of SUNYConnect's version of ScienceDirect and to allow for proper linking to that full-text.

Some changes have already been made to this set of parameters, based on input from the SUNY library community. The OLIS will send a new data file to Serials Solutions on a quarterly basis (and as it is available from Elsevier).

Electronic Resources (Annual Reviews)

The OLIS is coordinating SUNY renewals/orders for the package of Annual Review publications. [Current pricing is available](#). Contact John Schumacher if interested or if you need access information for the Annual Reviews proposal found in the OLIS Documents site.

Electronic Resources (various price proposals)

Current database offers/[pricing](#) are available via the OLIS Documents area.

OLIS

Benjamin Follis has left SUNY service. Best wishes to Ben on his future endeavors.
