E. H. Butler Library, Buffalo State College, has implemented the Summon Discovery Service from Serials Solutions. We've included our catalog and most of our databases, with a goal to direct users to try Summon as their first search option. We set it up so that an initial search result will deliver material our users can access: full-text, online articles and entries from our catalog.

"Because [Summon](#) is not proxied, anyone can give it a try. [Go to our web page](#), you can't miss it!"

Brockport's Drake Memorial Library and the College Archives are developing a site to [highlight Brockport faculty publications](#).
