NOTES:

Rationale

When new programs were developed for the preparation of future adolescent teachers, it was understood that the existing program, and others within SUNY required two semester of foreign language. We were advised, however, that only one semester was required. Subsequently, we have learned that the while SUNY is planning on making a change, the current requirement still stands at two semesters. Therefore, we are proposing to modify the curriculum for the Earth Science Adolescent Education major to include the required two semesters of foreign language.

SUBJECT: Support Letter for ESC College Senate Proposal

I am writing to offer my support of Dr. Noll's College Senate proposals, which slightly modifies the curriculum for Earth Sciences Adolescent Education major. Current SUNY policy require two semesters of a foreign language, while the existing major requires only one semester. This proposal seeks to remedy this issue.

Thank you for the opportunity to review the proposal.
