STATUS OF EARLY RETIREMENT INCENTIVE: (Received by Germaine and forwarded)

We have received some inquiries about the current status of the Early Retirement Incentive (ERI) Bill and wanted to provide you with a brief update.

The Incentive Bill has been now passed by both houses of the New York State Legislature, but has not yet been sent on to the Governor for signature by the Assembly. There has been no word yet on whether, or when, this will happen, or what action the Governor will take, particularly since the current version differs somewhat from the earlier version of the program.

If you receive inquiries from your employees, please simply advise them that until this legislation is signed by the Governor it is subject to change, and **that there is no official program in place at this point**. Once we receive more definitive news, we will provide you with additional information.

Please forward this to Asst. to the Deans/Chairs and Department Administrators, etc.

HABITAT FOR HUMANITY:

It's almost time to build! If you haven't done this before - here is an opportunity. The electrical and plumbing are done by contracted professionals. There are plenty of other ways to assist. Take a look at the attached and get back to Maryanne if you can spare some time for a good cause. **I will compile the list of library volunteers by the end of July!**

Does anyone want to try vinyl siding? In previous years libray staff has done sheetrocking and painting. The one year we were assigned to do landscaping it rained.

Wendy Rose and her three children, J'Shawn (9), Jah'Marrie (6) and Jah'taya (5 months)
