A workbook developed by the U.S. Agency for Healthcare Research and Quality (AHRQ) for the Putting Prevention into Practice program.	

Module IV:
**A Step-by-Step Guide to Delivering Clinical Preventive Services: A
Systems Approach**

Educational Objectives

Upon completion of this program, participants will be able to:

- Describe patient, physician, and office system barriers to the delivery of preventive services.
- Assess the readiness for change within their own office systems.
- Assess their current office systems with regard to opportunities for the provision of preventive services.
- Develop and implement a preventive care protocol based on current screening guidelines.
- Increase appropriate delivery of routine clinical preventive services through enhanced office system efficiency.
- Build an office atmosphere that encourages an active patient role in preventive care.
- Explain how to evaluate and refine their own preventive services delivery systems.
