Here's a SUNY OLIS "thanks!" to the [ALEPH Configuration Team](#). ACT provided recommendations and decisions in the following areas related to the SUNYConnect LMS implementation:

- SUNYConnect LMS hardware (Sun)
- shared authority control
- a real (rather than a virtual) union catalog
- initial focus on individual campus migrations to ALEPH
- an emphasis on the need for clear policy statements.

The plan is to establish working groups that are to focus on specific components of the SUNYConnect LMS. These groups are to work on specific implementation topics such as technical services (including authority control), SUNYConnect-wide circulation services, OPAC customization, union catalog implementation, etc. The SUNYLA Executive Board has been asked to nominate working group participants.

To state the obvious, members of SUNY OLIS won't achieve these project goals alone. Let us know if you or a colleague is interested in serving on one of these working groups.
